

2022: The Controlled Demolition of Everything

Description

The “Year of the Great Collapse” Is Upon Us

Who does not want to know what the heck is going on all over the world today—24/7?

Has there ever been such an in-your-face global campaign to lock down the planet, while practically force vaccinating every inhabitant on Earth?

Obviously, there is a very serious and tight time schedule being adhered to by the *New World Order* globalist cabal, especially where it concerns the inexorable execution of **OPERATION COVID-19** and roll-out of the *Covid Super Vaccination Agenda*.

Anyone who has followed this *Alt Media* platform ought to be aware of the several driving forces behind the *New World Order* agenda.

The most fundamental and profound influences have their roots in astrology, numerology and geomancy. Of course, there are other major forces employed by *The Powers That Be* (TPTB) which draw upon the entire gamut of occult arts and sciences. Some of those more powerful dark occult practices are, as yet, unknown to virtually all of humanity.

Hence, it's of paramount important for every human being to properly understand that what we are all witnessing and/or experiencing is a highly choreographed **DRAMATIC** production of truly biblical proportions.

At it's very core, this unparalleled global melodrama is illusory to the extreme and, therefore, has no basis in reality. Ergo, it's best to observe the upcoming awesome events as a witness to what will undoubtedly become “The Greatest Show On Earth—EVER!”

Executive Summary

1. The 2022/2023 AD time window was selected decades ago as the time frame to conduct a controlled demolition of the entire *Global Economic & Financial System* (GE&FS).
2. Because that “Global Gambling Casino” has been totally exposed as a **massive insider trading platform** for the power elite, it no longer functions as the Confidence Game it was set up to be.
3. Maintaining this CON by artificially propping up the markets (all of them) has become so time-intensive, labor-intensive and energy-intensive that there is now a mathematical certainty to its inevitable collapse. In other words, it's fast becoming impossible to prevent a spontaneous systemic breakdown of the GE&FS.
4. As a result of this inevitability, TPTB have long planned to coordinate a controlled demolition of the GE&FS under the rubric of the **GREAT RESET**.
5. Because of the pervasive and profound re-structuring of the world order brought about by the **GREAT RESET**, the top decision-makers executed **OPERATION COVID-19**, which was quickly followed by the implementation of the Covid *Super Vaccination Agenda*.
6. Both of these society-destroying, international criminal conspiracies were designed to soften up all of humanity so that the major and abrupt changes dictated by the **GREAT RESET** would be accepted as rapidly as possible.
7. The year of 2022 was specifically chosen as the beginning of the “Year of Final Collapse” for various reasons, each of which mutually supports the other.
8. First and foremost, 2022 is not only a scheduled Shemitah year, it is the year of the **Super Shemitah**. The indisputable 7-year pattern of Shemitah years has been long established as explained here: [The Actual Timing of the GREAT RESET Laid Bare](#).
9. Secondly, **Pluto has been crashing through Capricorn** since 2008, a transit that will culminate in 2022/2023 just as this same game-changing transit occurred from 1762 through 1778 during the extremely tumultuous American Revolutionary Period when it climaxed in 1776.
10. Thirdly, the trigger point for the “FINAL CRASH OF 2022” will occur this coming February when the United States of America will experience its very first **Pluto Return**. The first time Pluto astrologically impacted the USA occurred on its birthday in 1776, which actually occurred on July 4th—American Independence Day. As follows: [Get Ready For The First Pluto Return in American History](#)

KEY POINTS: The planet Pluto has an orbit of 248 years, which is why America's Pluto Return is transpiring 248 years after the Declaration of Independence was signed. In astrology, Pluto is associated with “*intense transformation*” and “*governs all things hidden under the surface*”. “*Because of its intensity, Pluto has the power to do great destruction.*” Perhaps the most relevant aspect of Pluto to these uniquely transformative times is that its astrological energies are highly destructive “*making space for a new and more capable entity to be born*”

[1] In other words, the world famous American Experiment is about to blow up the laboratory so that a new lab can be constructed that really serves *We the People*.

11. The Fourth concerns the extremely polarized political reality in the USA. After the Democrats outright stole the 2020 POTUS election, and got away with it, these highly experienced election thieves will attempt to steal as many **2022 midterm elections** as necessary to 'win' commanding majorities in both the House and Senate. (The DEMs must win BIG to shut down and/or thwart all ongoing 2020 election audits.) To implement the Democrat's communist agenda requires that they hold overwhelming power in all 3 branches of the US government. Toward that end, the Democrat Party is prepared to manufacture as much chaos and conflict nationwide in order to commit the requisite amount of voter fraud that will seal their stolen midterm 'victories'. Hence, 2022 will be fraught with much more MSM-incited racial tension, false flag domestic terrorism, geoengineered weather warfare, and, of course, a globalist-generated tidal wave of COVID-19 outbreaks and surges across the nation but especially within the Republican-dominated states. The Democrats know they must seize absolute power if they are to carry out their NWO agenda unimpeded and within the set time frame; and their sheer desperation and brazenness will reflect this treasonous objective more than ever throughout 2022.

It's critical to correctly comprehend that all of the preceding events will take place throughout the time frame that begins in earnest during January of 2022, and which will continue until Pluto leaves Capricorn in 2024. That means that all of 2022, 2023 and some of 2024 will see the most transformative and turbulent times in the history of the American Republic.

In other words, there is no stopping either the great destiny or difficult karma that is swiftly coming at these once United States of America. In all likelihood, the coming two to three years will make the First American Revolution look like a very tame Tea Party.

The good news is that the massive changes on the horizon are direly needed to restore the American Republic. Without them, this nation will go the way of all previous empires—a slow-motion collapse that causes much pain and suffering to the citizenry as well as to the world-at-large. In point of fact, the world community of nations has already suffered much adversity because of the desperation and aggression of the American power elite and their Western warmongering allies.

In reality, only by way of an immense paradigm shift throughout the international order can the necessary balance be re-established to an acceptable degree. That readjustment is soon to occur at warp speed given the plutonic energies swirling in and around the 50 states.

To Be Continued —

This discussion about 2022 and beyond will continue over the next few days; for this compelling narrative needs to be considered if humankind is to successfully navigate through the tempestuous times ahead.

For example, the CCRG will take a close look at the Master Number 22 as it relates to 2022.

Master number 22 is potentially the most successful of all numbers in numerology. It

is the most powerful of all numbers and often called the Master Builder.

The Master number 22 can turn the most ambitious of dreams into reality, but only when it is supported properly by other numbers in the chart.[2]

In the meantime, everyone is encouraged to disseminate this important perspective, as what has been imparted here provides an irrefutable explanation for all of the travails (i.e. fabricated COVID-19 *Plandemic*, Covid vaccine **genocide***, etc.) that every resident on Earth has undergone since January of 2020. In other words, it really is all in the stars as it always will be.
