E. Michael Jones joined me on the new False Flag Weekly News to discuss this week's unusually colorful list of official lies, atrocities, and MSM cover-ups. We opened with Larry Romanoff's excellent primer on the psychopathology of US political leadership, "Americans Are Criminally Insane."

A common theme emerged from several stories: Educated MSM-consuming Americans are lining up as the last people on Earth to learn the hidden truths of history, especially those concerning the unspeakable atrocities committed in their name. People from other parts of the world aren't nearly so misinformed. For example...

The Chinese know that 9/11 was an inside job:

Does Putin know who killed Kennedy?

Let's face it – if anyone knew who killed Kennedy, outside of the US elite, it would be the former head of the KGB. In this outtake of interview with Megyn Kelly, Putin alludes to the fact that the CIA may have killed President Kennedy. pic.twitter.com/JXcpWEkesh

It is clear to the world that the mutated coronavirus was produced in lab, manufactured by the warfare stock houses of biological war belonging to world powers,& that it constitutes a threat on humanity more destructive than the other weapons that target humanity. @antonioguterres

In the name of God
The Most Merciful, The Most Compassionate

To: His Excellency, Mr. Antonio Guterres
The secretary-general of the United Nations

Again Greetings and best regards, and fresh wishes for your success in fulfilling the heavy responsibilities in that organization

You are informed that the use of biologic means, including the recent and wide-scale release of coronavirus (COVID-19) as a new weapon for establishing and/or maintaining political and economic upper hand in the global arena, by some domineering powers, has caused worries among the public in nations, and further distortion in the security of the world people.

Feeling responsible vis-à-vis the spread and depth of the unprecedented material and intangible damages caused by this imposed war and invasion against humanity, made me present the statement of the problem:

Nowadays, it is clear to the world people that the mutated and intelligent coronavirus 2019, was produced in laboratories, and more clearly put, by the warfare stock houses of biologic war belonging to world hegemonic powers, and is much more anti-human, destructive and horrible than the other anti-human weapons such as the nuclear and chemical ones, as well as Harp.

As the Secretary-General of the United Nations, you are expected to:

Strongly slam the anti-human action by world criminal powers in imposing the biologic war on nations, aimed at domineering, and don't allow the perpetrators of such crimes realize their political-economic crimes and evil plans and avert justice and penalty through the United Nations, by white washing their crimes.

General Assembly. The foreseeing of executive measures for supervision and control, and penalizing any move in that direction, needs to be on top of the agenda.

The World Health Organization (WTO) needs to be obliged to identify the above-said laboratories, as well as the elements of use of viruses such as Corona, and introduce them to the world.

Nowadays, with the rising awareness among nations, and the increased unity and cooperation for achieving freedom, justice, dignity, welfare and prosperity, the dominance of Devilish/anti-human powers has been exposed, their reliance on mass killing weapons and their perpetration of crimes, not only doesn't open up the way for their escape, but also leads to their massive oppression.

I hereby assure everyone that in near future, and with the joint efforts of the rivers of nations, and with the advent of The Perfect Human, the friend, guide and loving one, the true power of nations and hegemony will be uprooted, and the glorious day of complete establishment of humanity, and the era of the grandeur of God's grandeur, and characteristics, names and humanity will come. I pray to God the Almighty, for your prosperity, and that of all nations and those who subscribe to the dignity, security and excellence of the society.

Are Americans starting to wake up and join the rest of the world in calling out the crimes of their Deep State? E. Michael Jones thinks so. He notes that that the term “false flag,” which nobody had heard of twenty years ago except the black ops specialists who teach such things in military academies, is becoming a household word—like “Deep State.” Donald Trump and his supporters use both terms regularly.

Jones also notes that Trump owes his success to popular mistrust of mainstream media. In the past, whenever the media unloaded with both barrels on a politician, that politician obediently bit the dust. But Trump, like a horror movie zombie, just keeps lurching across the political landscape, absorbing enough media-machine-gun-fire to kill thousands of ordinary mortals and looking none the worse for wear.

Those nostalgists who yearn to reconstitute the good old days when big media could dictate fiat reality and force people to believe it are waxing ever more hysterical. They are now openly deeming conspiracy theorists “enemies of the state.” Black Americans who oppose the war in Ukraine are getting their doors kicked in by the FBI. CIA whistleblowers who provide proof of Agency crimes to Wikileaks face up to 80 years in prison. Assange awaits death-by-extradition, while Snowden holes up in Moscow.

Meanwhile on social media, millions of people are wondering whether the strange deaths of Anne Heche and Jackie Walorski, both of whom died after their automobiles suddenly did insane things—shades of Michael Hastings!—could be related to their work exposing elite pedophiles and human trafficking rings. And speaking of elite pedophilia, why would the Justice Department pick an Epstein-complicit Trump-hating judge to sign off on the Mar-a-Lago search warrant?! James Kunstler:

The choice of going to federal magistrate Bruce Reinhart for the Mar-a-Lago warrant sure looks crude and desperate. Only weeks ago, he was presiding over the Trump v Clinton lawsuit. How did that even happen, given Mr. Reinhart’s role defending Jeffrey Epstein’s associates — many of them Clinton-connected — in the 2007 sex-trafficking case? And only after the spectacularly weird act of switching sides from the federal prosecution team to Epstein’s defense team. Not to mention Mr. Reinhart’s record of public statements denouncing Mr. Trump. There are twenty-five other magistrates who rotate their duties in the Southern District of Florida, why pick him?

Maybe because they’re gaslighting us?

But it seems the elites’ boundless contempt for ordinary Americans, and for world opinion, is starting to generate equally boundless contempt flowing in the opposite direction. When that contempt finally erupts into action, we may get to watch an empire crash and burn.
