

Audio obtained from Event 201 launch announcement in 2019 reveals covid to be a WEF-sponsored war games simulation

## Description

ddA long-deleted but recently unearthed audio clip of the October 2019 “Event 201” gathering in Davos reveals that the Wuhan coronavirus (Covid-19) was, in fact, a World Economic Forum (WEF)-sponsored war games simulation that was held in preparation for the global psy-op that ensued just a few months later.

*The Dossier* was able to retrieve the file, which was scrubbed from the internet for reasons probably having to do with the fact that its contents expose the *scamdemic* as a global live exercise that is still being used by the globalists to usher in a worldwide “Great Reset” event.

The theme of Davos in 2019 was “Globalization 4.0: Shaping a Global Architecture in the Age of the Fourth Industrial Revolution.” It coincided almost perfectly with the release of the Fauci Flu just a few months afterwards, which resulted in the further destruction of freedom and wealth at the hands of the *plandemic* tyrants.

As explained by *The Dossier*, the stakeholders who sponsored and participated in Event 201 all benefited enormously from the worldwide *scamdemic*, which destroyed small businesses and massively boosted the profit streams of the already obscenely rich.

## The globalists knew covid was coming because they planned its unveiling and release

The first announcement about Event 201 came on Jan. 23, 2019. Tom Inglesby, director of the Johns Hopkins Center for Health Security, in partnership with the Bill & Melinda Gates Foundation and the WEF, all spearheaded the event.

Inglesby would later become senior adviser in the Biden White House, which, following Donald Trump's unleashing of Operation Warp Speed, inflicted mask and "vaccine" mandates on tens of millions of Americans against their will.

The first person to retweet Inglesby's announcement was Ron Klain, who would also later go on to work in the Biden White House as chief of staff.

Inglesby announced Event 201 during a Davos 2019 panel called "Acting Against A Risk That Business Cannot Ignore," which is part of the United Nations' Sustainable Development Goals (SDG).

Top executives from both Johnson & Johnson (J&J) and Merck, as well as the executive director of the Bill Gates-controlled Global Fund and the president of the UPS Foundation, all appeared and were featured at the event. Here is one of the interesting quotes that came from the meeting:

"Now imagine that in this coming year, with 200 epidemic events already straining resources around the world, we have an event two hundred and one. Event 201. But this event is the severe pandemic that we've all been preparing for and working to avoid and mitigate."

That statement alone suggests that these globalists knew exactly what was coming because they *planned* for it to come. They *wanted* a global *scamdemic* so they could strip We the People of even more of our rights while sapping our bank accounts dry.

Here is another quote:

"The exercise will be called Event 201 in honor of the, uh, potential pandemic. It will involve global business leaders, officials from national governments and international organizations."

This, too, points to serious foul play as it simply could not have been a coincidence that an actual pandemic – or so they say – would come just *weeks* after the Event 201 concluded.

And here is another quote that shows the profit model that was built into covid:

"Bill Gates has emphasized over and over again in his public announcements how important it is to have security aligned with national government and public health in a pandemic event like this. It has even led to the development of new vaccines and the stockpiling of vaccines, and major legislation has resulted."

So there you have it, folks. The covid *plandemic* was all about making the rich richer and the poor poorer. It was never about "saving lives."
