Description

USA: This was shared by a guy called Nicholas Veniamin & came with the following message:

"This video has been deleted from every platform (including google) years ago. It took me a long time to find it."

[‘Fact-checkers’ claim](#) the video was edited to alter its meaning. We reserve judgement on that as the ‘fact checkers’ make that claim without offering any evidence or even a copy of the video itself. Put that together with the widespread efforts to bury the video and one tempted to think that they are trying to discredit and bury a video that reveals too much about the elite’s real agenda.

We leave readers to decide.
