The Covid cultists are trying to “normalize” the idea of yearly Covid shots.

Soon Americans will be forced and coerced into taking a yearly Covid jab and yearly flu shot.

In fact, Dr. Jha said this is why God gave us two arms.

“I really believe this is why God gave us two arms — one for the flu shot and the other one for the COVID shot!” Jha said on Tuesday.

Dr. Jha’s comments come after Fauci said there will likely be a need for a YEARLY Covid jab.

Dr. Tony [Fauci told reporters](#) on Tuesday that there will likely be a need for a yearly COVID shot.

Since the first four (or is it five?) doses didn't really work as advertised, maybe the next one will?

"It is becoming increasingly clear, that looking forward with the Covid pandemic, in the absence of a dramatically different variant, i think we are moving forward with a vaccination cadence similar to that of an annual virus," Fauci said.

Fauci says annually updated COVID shots are likely required to match "the currently circulating strains"
