

## Biden Extends Mask Mandate For Americans, While Scrapping ALL Restrictions For Illegal Border Migrants

### Description

**While simultaneously ending all COVID restrictions for migrants crossing illegally into the United States, Joe Biden's CDC has extended mask mandates for Americans on planes and public transport.**

[A CDC statement](#) declares "Since early April, there have been increases in the seven-day moving average of cases in the U.S. The CDC Mask Order remains in effect while CDC assesses the potential impact of the rise of cases on severe disease, including hospitalizations and deaths, and healthcare system capacity."

The agency announced that "TSA will extend the security directive and emergency amendment for 15 days, through May 3, 2022."

White House Press Secretary Jen Psaki wasn't prepared to comment on the possibility that the mandate will be further extended next month:

As Biden extends the federal mask mandate on airplanes for 15 more days, Jen Psaki says "I just don't wanna make a prediction" if Americans should expect additional extensions.

Of course they will keep pushing this further back:

Fauci says Biden's decision to extend the federal mask mandate on airplanes for 15 more days is "a moving target."

Florida Governor Ron DeSantis described the move as “the Biden equivalent of continuing the beatings until morale improves.”

Meanwhile, at the same time, Biden is [ending the Title 42 public health authority](#) on May 23. Allowing illegal migrants to be swiftly returned to their home countries, the order was instated by President Trump to protect Americans from exposure to COVID and other diseases.

It is now expected that somewhere in the region of [18,000-30,000 migrants will pour across the border](#) every day.

Illegal immigrants are literally TAKING SELFIES after crossing the border.

This is open borders. <https://t.co/PjeQ06qhvd> [pic.twitter.com/m0UCNJfej4](https://pic.twitter.com/m0UCNJfej4)
