

Blathering Idiot Kamala Harris Tells Chuck Todd the Border Is Secure, Then Doubles Down on this Ridiculous Lie — After 2 Million Illegals Walked Across Open Border Last Year

## Description

**USA: Border Czar VP Kamala Harris joined Chuck Todd on Meet the Press on 9-11 Sunday.**

During their conversation, Kamala told Chuck that the border is secure in a long blathering statement. When Todd points out that 2 million illegal aliens just walked across the border last year, Kamala doubled-down, insisting the border was secure.

Kamala Harris just told [@chucktodd](#) [@MeetThePress](#) “the border is secure.”

When he pointed out that 2 million people crossed illegally this year, she doubled down.

How can we take these Democrats' claims about "defending our democracy" seriously when they lie so shamelessly?

You have to be a complete fool to believe this gaslighting.

Even [@ChuckTodd](#) befuddled. To VP Kamala Harris: "We're going to have two million people cross this border for the first ever. You're confident this border is secure?" [#MTP pic.twitter.com/b6Dcloj7dp](#)

For the record, the Meet the Press interview was in Texas but Kamala DID NOT visit the border while she was there.

**President Trump built over 400 milies of border wall during his first term in office.**

Joe Biden stopped the wall construction *on day one* and flung open the US borders.

Biden will welcome over 5 million illegal aliens across their open border in his first two years in office — an impeachable offense.

Any human being on the planet, no matter how dangerous, can walk across the US southern border today and will be welcomed with open arms by the Biden regime.

Oh, and there's this...

Texas began building its own border wall in December 2021.
