

BRAZIL: Regime Planning to Deny Conservative Senators and Representatives Their Seats – 1000 “Lulag” Concentration Camp Inmates Forced to Get the Vax

Description

BRAZIL: Arrested protestors in Brazil are being forcibly vaccinated with the Covid shots against their will. The left is now planning to deny conservative Senators and Representatives their seats in Congress and complete their Stalinist takeover.

Almost a thousand political prisoners are being held in the Federal Prisons in Brasilia. The men were sent to Papuda prison, the women to Colmeia penitentiary. “Upon arrival, they are vaccinated against Covid (probably against their will), given a rolled-up mattress without a pillow and a hygiene kit”, [Brazil in English](#) wrote.

??Meu Deus....

??According to information received today, patriots (that are below being called terrorists) were vaccinated and received a ‘hygiene kit’ before going into the prisons where they will stay.

A group of left-wing lawyers close to the Supreme Court asked the Supreme Court to prevent right-wing Representatives from taking office, including Nikolas Ferreira (Minas Gerais), Carlos Jordy (Rio de Janeiro), indigenous delegate Silvia Wãiapí (Amapá), André Fernandes (Ceará), Sergeant Rodrigues (Minas Gerais) and Walber Virgolino (Paraíba). The suit alleges they supported the storming of the National Congress on January 8th.

American journalist Glenn Greenwald, who lives in Brazil, asked: “Has there ever been, a modern democracy where a single judge exercises the power that (Chief Justice) Alexandre de Moraes has in Brazil? I can’t think of any examples even close.”

“One of the greatest ironies of Moraes’ extraordinary popularity among the corporate media and the left was that he served as Minister of Justice, and later was appointed to the STF, by a president and government widely considered at the time to be not only illegitimate, but “a coup leader. “

Existe agora, ou já existiu, uma democracia moderna onde um único juiz exerce o poder que Alexandre de Moraes possui no Brasil? Não consigo pensar em nenhum exemplo sequer próximo. <https://t.co/7z3JPFTdB0>

Lula’s new “Human Rights Minister”, Silvio Almeida, said he will give detained protesters the strictest treatment, even though Almeida sympathizes with criminals charged with drug trafficking, robbery, theft and crimes against life across Brazil.

The Institutional Security Cabinet (GSI), linked to the President of the Republic, dismissed a platoon of 36 security guards from the Presidential Guard Battalion 20 hours before the invasion last Sunday, in Brasilia, [Rio Times reported](#).

The former governor of the Federal District, [Ibaneis Rocha](#), said that security had been sabotaged, encouraging the [invasion](#) of the National Congress, Presidential Palace and Supreme Court by the demonstrators.

At least 48 federal agencies were warned of the possible escalation in Brasilia but did nothing, it was reported.

48 federal agencies were warned of possible invasions in Brasilia but they didn’t act. This is collusion or malfeasance. Innocent people were arrested to intimidate the Brazilian people.

A video on social media shows police inviting protesters into the National Congress last Sunday Jan. 8. The video shows, demonstrators climbing the stairs of the Congress chanting, to find the police unit already positioned inside the building. The officers offer no resistance to the protesters, who applaud the agents and return the friendly gestures: “This is for us, guys.”

Public Prosecutors in Brasilia submitted a request to the Federal Audit Court to seize Bolsonaro's assets, blaming Bolsonaro for property damage in Sunday's riots.

Prisoners were forced to sign confessions if they wanted to leave the "Lulag" concentration campo, including a 74-year-old woman:

It is impossible to accept this lie. How does a 74-year-old lady have the physical strength to break armored glass and promote that destruction? And worse, she was forced to sign a guilty plea for a crime she didn't commit. [#ImpeachmentDeLulaJá](#)
