

## **\*\* BREAKING BOMBSHELL \*\*** Dinesh D'Souza Releases Movie Trailer for “2000 Mules” Exposing Ballot Traffickers Who Stole the 2020 Election

### **Description**

USA: [True the Vote](#) has been working with Dinesh D'Souza to create a bombshell movie that uses footage they obtained of ballot boxes in key states across America to steal the election in 2020.

[100 Percent Fed Up](#) reports – Using commercially available geo-tracking cell phone data, True the Vote was able to take footage from drop boxes across America in key states like Georgia and others to track over 2,000 ‘mules’ wearing gloves and disguises to stuff ballot boxes.

Dinesh D'Souza narrates the clip from his upcoming movie “2,000 Mules”:

“This one “mule” made 53 trips to 20 drop boxes.

He's not alone.

We tracked 2,000 mules making multiple ballot drops.

Leaving no fingerprints.

Snapping photos to get paid.

A coordinated ring of illegal vote harvesting in all the key states where the election was decided.

Game over.”

**Reminder** — As TGP has reported earlier this week we [recently signed an agreement with True the Vote](#) that includes never before seen ballot dropbox surveillance video, 24 Terabytes of footage, with the election integrity group in their ongoing investigation. Special Thanks to Patty McMurray at [100% FedUp](#) for her exceptional work on this.
