Brussels and Vancouver:

The International Court that forced Pope Benedict from office in 2013 has struck a blow against the COVID corporatocracy by convicting top officials of Pfizer, GlaxoSmithKline, China, and the Vatican of Crimes against Humanity.

The Court's verdict sentences seventy-five individuals to life imprisonment, seizes their assets and disestablishes their corporations, and lawfully prohibits the further manufacture, sale, or use of their COVID vaccines as "*products of medical genocide and mass murder*".

After a four-month trial convened under International Law, the judges of the International Common Law Court of Justice (ICLCJ) issued their historic verdict and sentence today, along with Arrest and Expropriation Warrants against the defendants.

The convicted individuals include Albert Bourla and Emma Walmsley, the CEO's of Pfizer and GlaxoSmithKline Pharmaceuticals, Xi Jinping, President of China, 'Pope' Francis (Jorge Bergoglio), 'Queen' Elizabeth (Windsor), and Justin Trudeau, Prime Minister of Canada.

According to the Public Affairs Office of the Court,

“This case involves a monstrous, intergenerational crime and its equally massive coverup. The highest officials of Church, State, and Corporations have for years personally sanctioned and profited by the systematic torture, trafficking, and murder of children in deadly drug testing experiments to produce the COVID ‘vaccine’, as part of a Criminal Conspiracy to reduce humanity to slavery. That Conspiracy murders the innocent, traffics in arms, drugs, children, and human organs, and silences or destroys those who threaten to expose it.

“Our Court has put a legal end to that Conspiracy by criminalizing the persons and the corporations responsible, and prohibiting the further sale and use of the COVID ‘vaccines’, which are the product of medical genocide and the mass murder of children.”

The Court’s verdict and sentence casts a wide net over those responsible by tracing the roots of the COVID regime to the planned genocide of indigenous people in Canada by the Vatican and the Crown of England, including in the murderous “Indian residential schools”.

The Court establishes that the public opponents of this genocide, especially Kevin Annett, have been continually targeted for destruction by the convicted defendants, who are responsible for the murder of fifteen activists and several recent attempts on Annett’s life.

“Our warrants empower not only our Sheriffs and deputized police, but people everywhere to enforce the Court’s verdict by arresting the convicted felons, seizing their assets, and halting the sale and use of the genocide-derived COVID ‘vaccines’,” says the Court.

“The killers of children can no longer evade justice using executive or corporate privilege, or by hiding behind the camouflage of contrived public health crises.”

The Court documents are attached to this notice.

An action plan for police and citizen participation in the enforcement of this historic verdict and sentence will be discussed tomorrow, January 16, at www.bbsradio.com/herewestand (at 3 pm pacific, 11 pm GMT).
