

C19 was known by the DoD and DHHS months before anyone else – Ukraine bio-weapons labs involved – 115 million bucks of funding over 14 years from DoD + DHHS for Ecohealth Alliance and Metabiota

Description

Expose-news.com has done a fantastic job pulling the threads of US involvement in the origins of the C19 pandemic and (almost) making “whole cloth”.

Much of this has been in the public domain for years with little in-depth coverage by anyone in the MSM.

The US DoD has been shown to be the project manager of networks of private companies that provided the logistics for the national roll-out of almost 700 million doses of mRNA injections across the US.

It is not a great leap of logic to extend this control into a stealth project that upgraded bio-weapons labs in Ukraine from 2014 into silent biological war against Russia, or that the Wuhan Institute of Virology was a bought and paid for attempt to do the same in China.

I have referred to this snippet from the EU Parliamentary records for January 2016 many times:

[Parliamentary question | Outbreak of the deadly ‘California flu’ in Ukraine | P-000636/2016 | European Parliament \(europa.eu\)](#)

I posted references to a Children’s Health Defence review and others in October 2022 here:

[Baric did it – Fauci paid for him to do it \(substack.com\)](#)

[New Analysis of COVID Virus Suggests Fauci and Baric’s Fingerprints on Pandemic Bug • Children’s Health Defense \(childrenshealthdefense.org\)](#)

[The Lancet Commission on lessons for the future from the COVID-19 pandemic – The Lancet](#)

And, related to a recent [cross-posting of “tailless” genomes](#), this 17 page tome:

[Endonuclease fingerprint indicates a synthetic origin of SARS-CoV-2 \(biorxiv.org\)](#) which has this in its Summary:

“To make a virus in the lab, researchers usually engineer the viral genome to add and remove stitching sites, called restriction sites. The ways researchers modify these sites can serve as fingerprints of in vitro genome assembly.

We found that SARS-CoV has the restriction site fingerprint that is typical for synthetic viruses. The synthetic fingerprint of SARS-CoV-2 is anomalous in wild coronaviruses, and common in lab-assembled viruses.”

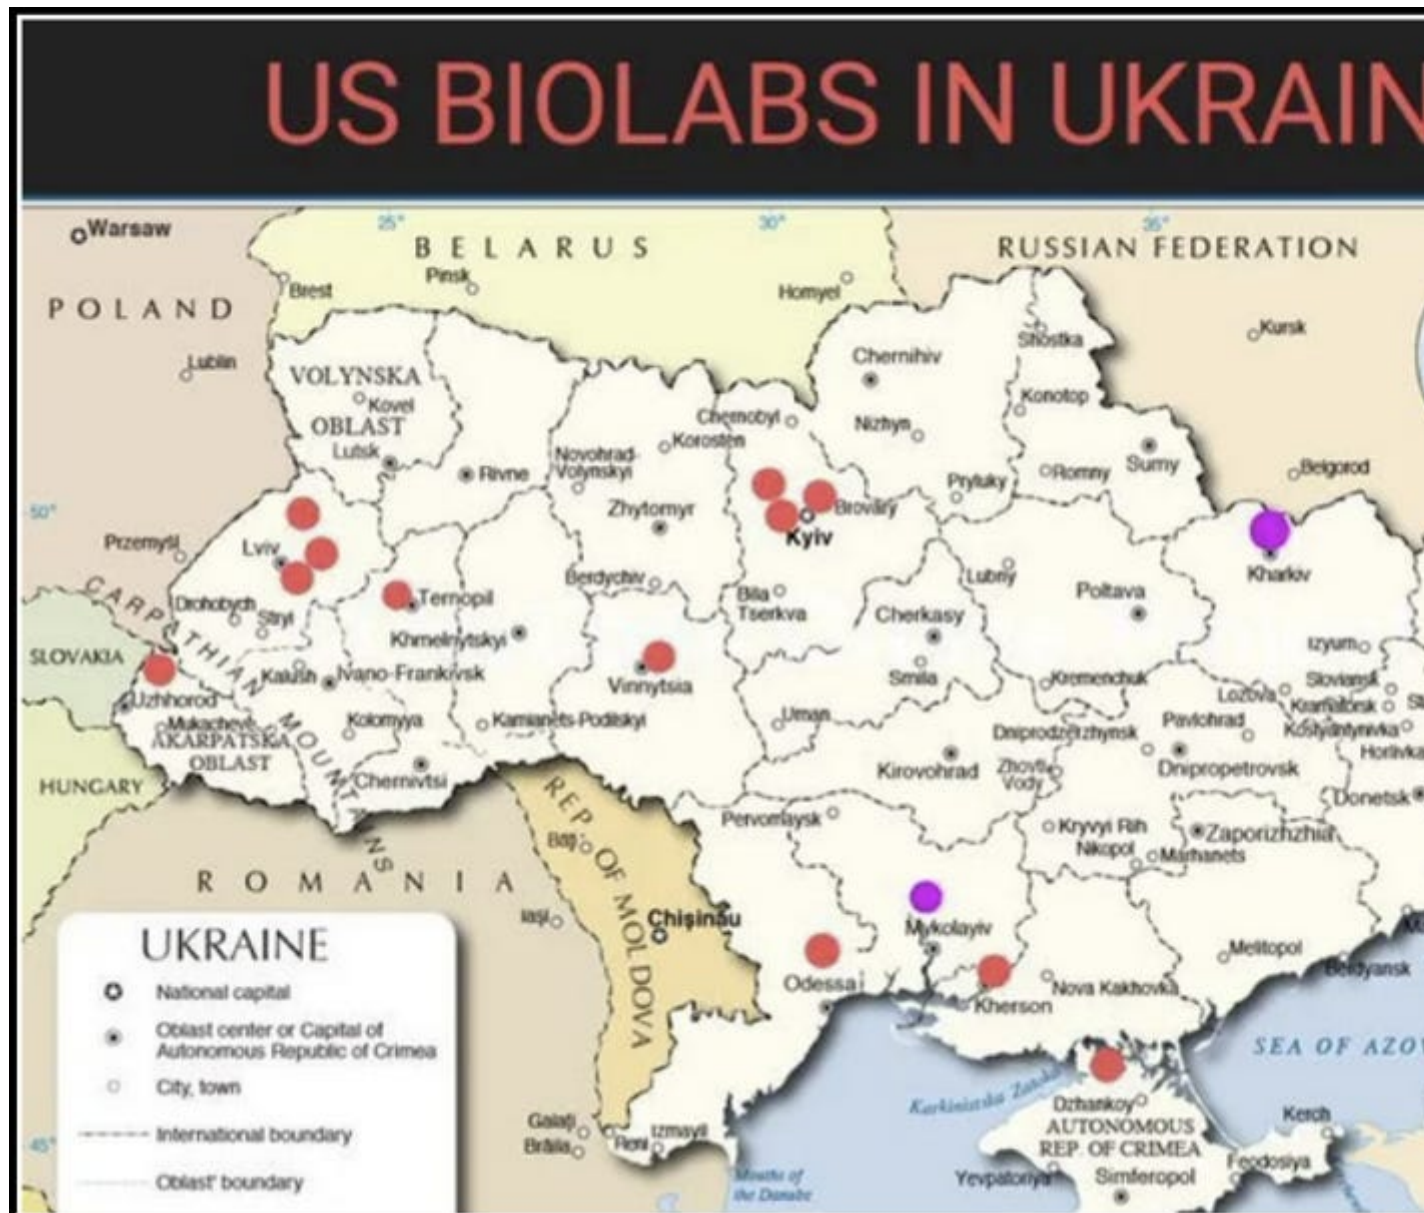

I have a “conspiracy hypothesis” that EcoHealth Alliance, Metabiota and Labyrinth Global Health INC are devices that provide cover for DoD stealth operations. So are certain operations within the HHS alphabet soup (such as Fauci’s NIAID, NIH) and Universities like University of North Carolina (and others who will be conducting research on parts that are unknown to them but coordinated by the DoD and who it chooses to include in the loop).

I urge you to spend the 20 minutes it takes to read the Expose-news.com article – they also are reader supported and are short of funds to support their research.

Here’s a few teasers from the Expose-news.com article.

“The contract awarded in November 2019 for ‘COVID-19 Research’ was not only instructed to take place in Ukraine, it was in fact part of a much larger contract for a ‘Biological threat reduction program in Ukraine’.

“Perhaps explaining why Labyrinth Global Health has been collaborating with Peter Daszak’s EcoHealth Alliance, and Ernest Wolfe’s Metabiota since its formation in 2017.”

“A confidentially agreement which can be viewed here, states that providers ‘Moderna’ alongside the ‘National Institute of Allergy and Infectious Diseases’ (NIAID) agreed to transfer ‘mRNA coronavirus vaccine candidates’ developed and jointly-owned by NIAID and Moderna to recipients ‘The University of North Carolina at Chapel Hill’ on the 12th December 2019.”

[NIH-Moderna-Confidential-Agreements.pdf \(documentcloud.org\)](#)

“The material transfer agreement was signed the December 12th 2019 by Ralph Baric, PhD, at the University of North Carolina at Chapel Hill, and then signed by Jacqueline Quay, Director of Licensing and Innovation Support at the University of North Carolina on December 16th 2019.”

“The agreement was also signed by two representatives of the NIAID, one of whom was Amy F. Petrik

PhD, a technology transfer specialist who signed the agreement on December 12th 2019 at 8:05 am. The other signatory was Barney Graham MD PhD, an investigator for the NIAID, however this signature was not dated.”

As a reminder, here is funding for DoD subcontractor EcoHealth Alliance, before and after the :

[Funding for EcoHealth Alliance – BEFORE C19 = 27 million bucks – AFTER C19 = 44 million bucks \(substack.com\)](#)

To here:

[Federal Awards | Keyword Search | USAspending](#)

https://www.usaspending.gov/keyword_search/ecohealth%20alliance

EcoHealthAlliance	<2019	>2019	T
US AID	2,499,147	8,675,023	11,1
DoD	2,942,019	0	2,9
DTRA (DoD)	10,322,791	24,683,290	35,0
US UHS (DoD)		1,360,002	1,3
NIH (DHSS)	9,432,977	6,966,350	16,3
CDC (DHSS)		2,339,300	2,3
NSF	1,989,377	263,801	2,2
Total	27,186,311	44,287,766	71,4

[Federal Awards | Keyword Search | USAspending](#)

https://www.usaspending.gov/keyword_search/metabiota

Note: Metabiota took over the infectious disease and zoonotic research activities of the Global Viral Forecasting Institute (GVFI) in 2019 – the same time that Moderna was awarded those contracts –

GVFI was founded by – drum roll – Nathan Wolfe – the founder of Metabiota.

GVFI and Metabiota received funding as below. Enquiring minds might want to know why the US Navy is providing so much funding, so a separate line for US Navy funding within DoD is shown.

GVFI	federal_action_obligation	non_federal_funding_a
DHHS	4,899,897	4,
DoD	15,771,038	36,
Total	20,670,935	41,
US Navy	5,827,978	13,
Metabiota	federal_action_obligation	non_federal_funding_a
DHHS	7,286,956	7,
DoD	16,373,926	16,
Total	23,660,882	23,
US Navy	12,002,640	12,

I have no idea what the terms federal_action_obligation and non_federal_funding_amount mean!

“federal_action_obligation” amounts for GVFI + Metabiota totalling more than 44 million bucks – with the US navy chipping in 16 million (funds from 2007 to 2018 for GVFI and from 2009 to date for Metabiota).

All up, Metabiota and EcoHealth Aliance have received over 115 million bucks in funding from the alphabet soup of US federal agencies.

What has this produced that is of any value to the US tax payer?

Onwards!
