

CDC Admits Crushing Rights of Naturally Immune Without Proof They Transmit the Virus

Description

You would assume that if the CDC was going to crush the civil and individual rights of those with natural immunity by having them expelled from school, fired from their jobs, separated from the military, and worse, the CDC would have proof of at least *one* instance of an unvaccinated, naturally immune individual transmitting the COVID-19 virus to another individual. If you thought this, you would be wrong.

My firm, on behalf of ICAN, asked the CDC for precisely this proof (see below). ICAN wanted to see proof of any instance in which someone who previously had COVID-19 became reinfected with and transmitted the virus to someone else. The CDC's incredible response is that it does not have a single document reflecting that this has ever occurred. Not one. (See below.)

In contrast, there are endless documents reflecting cases of vaccinated individuals becoming infected with and transmitting the virus to others. Such as this [study](#). And this [study](#). And this [study](#). And this [study](#). It goes on and on...

But it gets worse. The CDC's excuse for not having a shred of evidence of the naturally immune transmitting the virus is that "this information is not collected." What?! No proof! But yet the CDC is actively crushing the rights of millions of naturally immune individuals in this country if they do not get the vaccine on the *assumption* they can transmit the virus. But despite *clear proof* the vaccinated spread the virus, the CDC lifts restrictions on the vaccinated?! That is dystopian.

The facts about natural immunity are simple – see this link for exchange with CDC regarding same. Every single peer reviewed study in this exchange with the CDC has found that the naturally immune have far greater than 99% protection from having COVID-19, and this immunity does not wane. In contrast, the COVID-19 vaccine provides, at best, 95% protection and this immunity wanes rapidly. I am no mathematician, but a constant 99% seems preferable to a 95% that quickly drops. And, while the vaccinated readily transmit the virus, not so for the naturally immune.

The lesson yet again is not that health authorities should never make mistakes. They will. It happens. The lesson is that civil and individual rights should never be contingent upon a medical procedure.

Everyone, the naturally immune or otherwise, who wants to get vaccinated and boosted should be free to do so. But nobody should be coerced by the government to partake in any medical procedure.

Re: COVID-19 Infection and Transmission (HHS-6532)

Dear Sir or Madam:

This letter represents the Infected, Concern, Action Network ("ICAN"). On behalf of ICAN, please provide the following records to siri@sg.com in electronic form:

Documents reflecting any documented case of an individual who: (1) never received a COVID-19 vaccine; (2) was infected with COVID-19 once, recovered, and then later became infected again; and (3) transmitted SARS-CoV-2 to another person who is infected.

We ask that you waive any and all fees or charges pursuant to 5 U.S.C. § 552 (a)(4)(A)(ii). ICAN is a not-for-profit 501(c)(3) organization whose mission is to raise public awareness about vaccine safety and to provide the public with information to give informed consent. As part of its mission, ICAN actively investigates and disseminates information regarding vaccine safety issues, including through its website, and through press events and releases. ICAN is seeking the information in this FOIA request to allow it to contribute to the public understanding of the government's vaccine safety programs, including the government's efforts to promote vaccine safety. The information ICAN is requesting will not contribute to any commercial activities.

Please note that the FOIA provides that if only portions of a requested file are exempted from release, the remainder must still be released. We therefore request that we be provided with all non-exempt portions which are reasonably segregable. We further request that you describe any deleted or withheld material in detail and specify the statutory basis for the denial as well as your reasons for believing that the alleged statutory justification applies. Please also separately state your reasons for not invoking your discretionary powers to release the requested documents.
