

Confronting One World Order (OWO) Globalism. The Rise and Fall of the Beast

Description

Legend has it, that when things go wrong and everybody is hoping for better times, they first have to get worse, before a new era of peace and harmony may emerge.

We may now be at these crossroads. The Beast is Rising. But its Fall is in sight.

We have to understand, the Beast is Big. It's Huge. It's so extraordinarily big, humanity has never faced something like it in recorded history.

So, we better are properly prepared.

Imagine, a small handkerchief or a pocket-square (a tiny decorative lapel accessory) is sitting on a huge quintuple king-size bedsheet, aiming at controlling the bedsheet. That's the globalist Cult Elite, aiming at converting the world population into a One World Order (OWO). It will not happen. It's an image so absurd that could have only emerged from a megalomaniac – which is what the WEF and its Master, Klaus Schwab, and his behind the scene money masters are.

No matter, how powerful they think they are, tyrannizing the world at large into their slaves, We, the People, will make sure it will not happen. Fissures in the OWO ranks are already clearly visible.

The new motto is bye-bye OWO-Globalism and welcome to the new multipolar world.

Actually, a world that is gradually becoming an east-west polarization, with a west that is ever faster decaying in more ways than one – monetary-wise, in term of political ethics, as well as faltering support from western and hitherto western-leaning governments and, at least, by two thirds of western people, who vehemently oppose their governments.

Mind you, we are not quite there yet – at the point of western collapse.

However, the *crack in the wall, where the light shines through* [paraphrasing a famous Leonard Cohen song] gives enormous hope for the light to prevail.

The Big Picture – what is it?

The Big Picture has three major branches, three major objectives of the Beast to fulfill. Imagine the Beast as a multiple-tentacled Monster-Octopus. Listed not necessarily in order of priority, but rather as a simultaneous bulldozing approach, they include:

- i) Massive depopulation, genocide, worldwide; an eugenist agenda on which the Gates and Rockefellers *et al*, have worked already for decades, and already their predecessor generations were obsessed with eugenics. Less people, less “useless eaters” – and consumers of scarce, unrenewable resources. So bluntly presents it Yuval Noah Hariri, Israeli “intellectual” and close adviser to Klaus Schwab, the WEF’s eternal CEO;
- ii) Shifting assets from the lower and middle echelons to the top – the elite, billionaires, individuals, as well as corporate finance, such as BlackRock, Vanguard, State Street; others may include Fidelity, City Bank, Bank of America and many more.

The first three alone are interlinked as shareholders and can act as one, controlling an estimated 25 trillion dollars, worldwide, giving them a leverage power of way above US\$ 100 trillion (compared to the world’s GDP of about US\$ 90 trillion), thereby having virtual control over every country on the globe, and

iii) **Digitization of everything**, connecting everything with everything, eventually with the mega-powerful ultra-shortwaves 5G and soon to come 6G. Through these electromagnetic waves, they may access our brains. It’s Klaus Schwab’s pipedream. It includes digital worldwide uniform vaxx-passes, managed through the infamous QR-code, or similar, with practically illimited info-storage capacity.

Currently it has a potential of storing more than 30,000 pieces of information about each one of us. Those who manage the QR-code, know you better than you know yourself. It is an updated version of Bill Gates’ Agenda ID2020.

Digitization may, as a first step, include an under-the-skin chip on every surviving citizen – currently being volunteer-practiced in some Nordic countries, like Sweden and Denmark, storing and monitoring every piece of info about you, incl. health records, bank accounts, with whom you talk, where you travel, where and what you shop — and-and-and – you got the picture.

Later, it will likely just be an electronic fingerprint in the form or capacity of a QR-code or its successor, that is engrained in our bodies through an electromagnetic field which is being injected into our bloodstream – graphene oxide, for example – under the pretext of covid vaxxes, or eventually any vaxxes invented and forced upon the population.

The next one may be the “new” flu-vaxx – already announced as a novelty, practically untested, but ready for the fall season. **Be aware and beware!**

Digital money, already largely dominating the Global North, will become the norm by the end of Agenda 2030, or sooner – if WE, the People, do not stop it. – And yes, we can. Digital money would make us to digital slaves; digital money could be blocked at will by the Cult Cabal, or outright stolen, depending on our behavior.

No worries, according to **Klaus Schwab**, *we eventually will own*

nothing but will be happy – that's the paraphrased ending of the Great Reset. Our mind will no longer think independently, but 5G and the graphene oxide injected by the *covid and other vaxxes still to come*, will make from humans so-called “transhumans” (expression used by Klaus Schwab in an interview in 2016 with the Swiss French TV), basically useless and dispensable slaves, since robots and Artificial Intelligence (AI) will have taken over human roles.

These goals are all addressed in one way or another in the WEF's Great Reset. It may be worth your while to have a glance at it. Most libraries contacted, answered with a smile, they don't carry the book; they'd rather not associate with this monster plan.

The globalist agenda is gradually disintegrating. See [this](#) on the anti-

globalist trend of the WEF in Davos, May 2022.

Yet, the globalists keep fighting on. A hopeless game. But they may be able to extend their globalist drive for a while, with perpetual lies, untold riches of immorally and largely illegally acquired financial wealth, possibly bringing about millions of victims – and, God forbid – leading into WWIII, potentially meaning a hard-core nuclear war.

The Beast is still on the rise. That does not mean it is winning.

Many of us may not notice. It is discrete, but deadly. In all its discretion, it keeps announcing what it is planning, what is in store for humanity. The Cult, the *Luciferian Cult*, to which the Beast likely belongs, in order to succeed, has to announce its action well in advance. Lest they, the Cult, may not prosper.

The Cult's Warnings

The Cult has repeatedly warned us throughout the last at least 50 years. It has always told us well-in-advance what they and their minions were planning. And this with increasing intensity in the last two to

three decades. Just a few examples. Most of us have conveniently ignored their warnings.

The 1992 Earth Summit in Rio – official name *United Nations Conference on Environment and Development* (UNCED), was held in Rio de Janeiro, Brazil, from 3-14 June 1992. It was based on the **Club of Rome's** (in)famous 1971 publication “**Limits to Growth, A Simulation Model of World Population, Environment and Economics**”. The model predicted a looming environmental disaster in the coming 50 to 100 years, i.e., beginning just about now.

The Club of Rome, alias the Earth Summit, gave the impetus for what is today known as the Global Warming *cum* Climate Change Agenda – with its commercial side-kick, the **New Green Deal**.

You must know, the Club of Rome was not a European invention, as the name may have you believe. It was a Rockefeller initiative.

9/11 was the deadly, violent event to announce a new era – an era of increasing to total control, depriving personal liberties, restrictions with often denigrating and embarrassing airport security checks. A few weeks after the well-organized horrendous 9/11-devastation, the **Patriot Act was passed through Congress**. It had been prepared way before 9/11. It deprives US citizens of nearly 90% of their human and citizen rights.

Similar emergency type laws were passed with ease in Europe and other so-called “western countries”, referring to countries following the US political and monetary doctrine. Most of the Global North, or the West (also including, Australia, Japan, South Korea and New Zealand), currently lives under some kind of an “emergency legislation”, largely circumventing their Parliaments for matters that deal with the Great Reset Agenda.

Most of their populations have no clue that their Parliaments have been partially disabled.

The 2010 Rockefeller Report depicts the contents of the UN Agenda 2030 in four Chapters. The first one describes the Lockstep scenario. Pretty much what the world, the 193 UN member countries, went through after the worldwide declared lockdown for the covid-19 plandemic. In lockstep, every government followed the same human rights destroying stern rules, instilled and coerced by fear, dictated by WHO. See [this full 2010 Rockefeller Report](#) – chapters “*The Scenario Framework*” and the “*Scenario Narratives*” are of particular interest.

Bill Gates' – TedTalk February 2010 in San Diego – he advocated:

“If we are doing a real good job (vaccinating), we may reduce world population by 10% to 15%.”

This was just a trial balloon to gauge people's reaction.

It was also an announcement of things to come. As we know by now the ultimate target of world population is something of the order of half a billion people – as indicated on the Georgia Guidestones which have recently been vandalized. – No worries, the cabal will not reach that mass-genocide target. But it has already done immense harm, and if not stopped, will continue killing people, many in the most atrocious ways.

WHO declares in 2014 the decade of vaccination – referring to the decade of 2020 to 2030, i.e., the UN Agenda 2030. Did anybody pay attention? – How did WHO know? Maybe Bill Gates was whispering the orders in the “WHO halls” where “donations” are collected. Conveniently, any reference to this WHO warning has disappeared from internet.

June 2016 – the Swiss Gotthard tunnel inauguration – a bizarre *Luciferian Celebration*, depicting lockstep – Luciferian sex-dances and strange killings and deaths – remotely related to tunnel construction. Full of symbolism.

Google's explanation – *“While tunnels certainly represent journeys, they more often symbolize **the passage from one phase of life to another**. In its most primal meaning, the tunnel symbolizes the birth canal. Just as a baby evolves and journeys outward, so do characters of a story.”*

See also this 6-min. Gotthard Tunnel inauguration video clip.

It is certainly a passage through darkness. No surprise. Not evil or Lucifer ever projected a world of light for us, the common people. All to the contrary, the more obscure they keep us, the more fear they instill, the more control they gain. And that is what seems they want to play out. – To no avail. They won't succeed.

for Health Security in partnership with the World Economic Forum (WEF) and the Bill and Melinda Gates Foundation hosted Event 201, a high-level pandemic exercise on October 18, 2019, in New York City.

The Event's website describes the exercise as an *"aera where public / private partnerships will be necessary during the response to a severe pandemic in order to diminish large-scale economic and societal consequences."* The real object of the exercise was just the opposite, via a corona virus.

By coincidence, a few weeks later, at the beginning of 2020, a corona-virus broke out, called SARS-Cov-2, alias Covid-19. WHO declared it a pandemic on 11 March 2020, when *reported* deaths, worldwide, were fewer than 5000. Knowing what we know today, one may ask: How reliable are these death reports – then and today?

Compare this with 52,000 flu-related deaths in the US during the 2017 / 2018 flu-season. The common flu was never declared a pandemic. See [this](#).

We are now being warned about the impending food shortages, energy shortages that will bring about a cold winter, famine; plus, a sizable recession preceded by horrendous double-digit inflation – that in turn will trigger bankruptcies, unemployment, poverty, misery – and more deaths.

The Beast's ascent is not undisturbed. There are forces pulling in other directions, attempting pulling it down, sideways and outright apart. The massive *crack in the wall, that lets the Light shine through*, is getting bigger and bigger. Once the light reaches a sufficient amount of people, a critical mass – the Beast's reign may be getting close to an end.

We are not there yet. Unfortunately. But we must think positive. Inspiring each other spiritually. Creating a mental and spiritual togetherness. We, the Awakened People, can bring this diabolical era to an end.

Following the lead mentioned above, the Beast may be depicted as a multiple-tentacled Monster-Octopus. Each tentacle has its deadly mission. Many tentacles have sub-tentacles. In case a tentacle is defeated the others will fight on, and the defeated one will grow back with even greater vigor. That's the concept.

We have to be aware and conscious of these multiple-scenarios and the Big Picture they constitute, so as not to allow our attention to being deviated by one single scenario – for example, the plandemic and vaxx narrative. Though, admittedly important, it ought to be connected to all other "tentacle-scenarios", lest we miss the overall objectives of **The Great Reset Agenda, alias UN Agenda 2030**.

We want to stop this human-made criminal Outbreak of misery and death as a whole, in its entirety. If we do it by compartment, our chances to overcome the Beast are largely diminished. The Cult Cabal counts on us being distracted by one or two tentacles, while the others keep laboring ahead – almost undisturbed – reaching gradually their goals.

It is utterly important that we are aware that all the tentacles are connected. There are no coincidences; and there is no single frontline in this war. The entire humanity, no matter where we are on this globe, is the frontline. That also means, there is no escape.

Unless, and this is crucial, we wake up. This is our escape. We, the People, see the light, and ascend to another level where the darkness of the Beast cannot reach us anymore. We need a critical mass for our People's Power to be strong enough, to pull us, humanity, through and collectively onto a different, higher and enlightened plane.

To do that, for those who are awake, who see the Beast, who see the tentacles and their machinations as killing machines, it is utmost important that we always see the overall objective of the Great Reset, the UN Agenda 2030, and the 4th Industrial Revolution, hence, the Big Picture.

When we fight one tentacle, say, the covid narrative, an important one, we must always remember that there are others, and that covid is only one cog in the wheel, in the gear of the Reset destruction.

The covid tentacle has many sub-tentacles: Big Pharma is one; the vaxx-mandate is another one; the useless and socially degrading forced mask-wearing, social distancing, and home-office work, are all ways of humiliating, separating and isolating individuals. And so forth. They all play nicely into each other, enhancing each other, psychologically, by FEAR, and physically, by various forms of other than covid diseases, i.e., all types of cancers, leukemias, liver-kidney and heart failures – and much more; all potentially deadly. Indeed, they have already caused exponentially more deaths than the covid-plandemics is said to have caused.

It would, therefore, be unwise to put all our scientific knowledge into the vaxx debate, or the covid infection – *is it real, or isn't it?* It doesn't matter. But by doing just this, we are playing into the devil's hands.

While it is a must to identify the covid fraud – describing the scam scientifically by medical doctors, virologists and other scientists, but it is by far not enough. The public at large must understand the cheat, so they may be able to shed off the immune system destroying fear.

Overall objectives of the Reset are in plain view. Therefore, we must expose and connect the Cult's covid fraud and the fear it causes, to all other tentacles of the Octopus-Beast. We must fight the **entire GREAT RESET Narrative** as a whole and in solidarity.

Other Tentacles of the Octopus-Beast

Fear, already mentioned before, is yet another deadly tentacle. It is well known in psychology, that fear – the constant tension of fear – lowers our auto-immune defense. It renders us increasingly vulnerable to all kinds of diseases, including a myriad of different cancers and diseases of our vital organs. They all may lead to death, at which point it will be next to impossible to trace the cause of disease and death back to the poisonous "covid-vaxx".

Fear is one of the Beast's strongest weapons. Not only does it destroy our natural immunity, fear makes us blind and obedient. Blind to our own human rights. For fear, we give them up, hoping the Beast will save us. Instead, we are becoming slaves – slaves to our governments, who are, in turn, the

servants of the WEE – and the Beast.

Climate Change – the ever-most ferociously propaganda-pushed

agenda that the planet will heat up, that we humans are the culprits, as we use excessive amounts of fossil fuel, creating so-called greenhouse gases, driving world temperatures through the roof. As mentioned above, this is the continuation of the Rockefeller-initiated Club of Rome agenda to enslave the (western) world through guilt.

We, of the western / Global North's Judo-Christian beliefs or cultures, are beset by guilt, as part of our guilt-driven up-bringing. It's part of our religious *cum* cultural inheritance. So, we are extremely vulnerable when told that we, humans, are guilty of death and destruction causing climate change.

The Beast plays on this vulnerability. And very successfully at that.

To enhance the Green Agenda, the Climate Change narrative, Southern European countries – Spain, Greece, Portugal, France, Italy as well as the transatlantic United States are plagued by extreme heat waves, ever-so-often interrupted by deadly flash-floods. In the process, man-made forest fires destroy the forests, the very lungs providing life on earth with oxygen. The purpose is to enhance the Climate Change agenda.

See this 1-min video, how a “rescue helicopter” sprays fire on forests in Southern Spain, filmed by a fire-fighter. The text is in Spanish, but the video is self-explanatory; no text needed; see [this](#).

The truth is hidden or even censored from us. The universe, including our dear and generous Mother Earth, is never stagnant. She is constantly on the move. Not only physically but also temperature-wise.

Our egocentricity makes us believe that we with our short lives – on average less than 100 years – makes us the center of the universe, that everything that happens, occurs in our lifetimes, i.e., extreme climate changes / modifications.

For the past about two months the Global North went through record heat waves and record periods without rain. As reported by France, Spain, Germany, Switzerland, other countries in Europe, as well as parts of the US, these are heat and dry spells never experienced since weather measurements began, in some countries as early as the 17th Century. In others in the early 20th Century. The relentless heat in Europe, as well as the US, is destroying food crops, contributing to a worldwide food shortage, leading to famine, desperation and eventually death.

As a sub-tentacle of the Beast, more fear, crop loss, famine – death.

Although nowhere mentioned, nor proven, this record phenomenon, (yet to fully analyzed and ascertained) appears like “engineered weather”. It would typically fit into the type of DARPA research and DARPA released technology. DARPA is a Pentagon sponsored thinktank. Modified weather patterns are powerful weapons. They work silently, causing food shortages, famine and death – and

contributing in more ways than one to the **agenda of the Great Reset**. See [this](#).

Farmland Reduction – A concerted effort of farmland reduction is also part of the Great Reset agenda. Bill Gates is buying up farmland throughout the US and even in other parts of the world. He is said to already own chunks of farmland in Ukraine. See [this](#) [in German].

By now Gates owns some 300,000 ha of the most productive farmland mostly in the US but also elsewhere in the world.

Image not found or type unknown

Farmland owned by Gates will not produce bovine meat, under the pretext of methane gases that contributes to Global Warming. Under Gates' concept of food reduction, his farmland may not produce food at all – accelerating the *Hunger Games*.

By the same token, the Dutch Government under the leadership of **Mark Rutte**, a scholar of Klaus Schwab's Academy for Young Global Leaders, is adamant in reducing Dutch farmland by 30%. The Netherlands is the world's second largest exporter of agricultural goods, after the United States. See [this](#)

Dutch farmers have been in the streets for the last almost two months to protest their land being forcefully repossessed by the government to reduce the meat output. So far to no avail.

See [this](#).

Curtailment of international transportation

The airline industry is severely hit by flight reductions, due to largely artificial shortages of personnel – and unattractive covid restrictions (a vaxx-must for staff of many airlines). This is said having led to significant flight reductions precisely during the Global North's summer holidays.

The financial situation of many western airlines is precarious and may become even more so – as kerosene / petrol / energy prices keep rising.

The masters of the Great Reset do not want traveling people. They are not as easy to control as are stationary ones.

This tentacle serves at least two purposes: i) it keeps people stationary, more isolated from each other and from global movements; and ii) people who cannot move may be more fearful and better controllable.

Energy – Gas, Petrol, Electricity, Shortages

The consequences are multi-faceted. Like climate change, energy shortages affect everything. Our economies' growth drive is based on energy. Shortages of energy are leading to recessions, diminishing economic output, reducing the workforce, creating poverty – misery, disease — and yes, death.

But we are NOT in an energy shortage. An energy shortage is artificially created – under the pretext of the Ukraine-Russia war – which, in turn, has been created to serve the Great Reset agenda: Massive death, economic collapse, bankruptcies, poverty – prompting a shift of assets from the bottom and the center to the tiny elite on top – and, accelerating the ascent of an all-digitization – from money to the human brain.

But there is no energy shortage. It's all been artificially created by the masters of the WEF, and the Great Reset. See video below.

There are of course, many more “tentacles”, sub-tentacles and motives for what we are experiencing in the global North's hot and rainless summer months. But you got the drift. If you consistently ask: “*Cui bono?*”- or “*Who benefits?*” – The answer will lead you always to the same vile octopus with its multiple deadly tentacles, called the Great Reset.

This desired world model described by the WEF's Klaus Schwab *et al*, is a world towards an ultra-neoliberal system, with largely reduced humans and the surviving ones will have become "transhumans" (Schwab's term), manipulable by 5G and soon 6G, to be happy owning nothing.

To sum it all up, lets remind ourselves of the dangers related to the all-commanding digital control:

Beware of the QR-Code; Remember Agenda ID2020?

As a final note, a short video (7 min. August 6, 2022) of **Dr. Vernon Coleman**, about the dangerous new flu-vaxx – if you care for your children, this, as part of a pdf-file inserted in the [video](#)

These are Dr. Coleman's final words of advice:

"Be Aware. Take Care.

Don't believe what governments say. Warn everyone.

Please remember, you are not alone. More and more people are waking up. And once they are awake, they don't go back to sleep. We are already a far bigger force, than the conspirators would have you believe. If we are going to win this war, then we have to fight with passion, with the truth and we have to fight with determination. No mask, no test, no jab. Don't trust the government; no mass media, and remember – we have God on our side."
