

COVID “Vaccine” Passport Opposition Grows

Description

USA: In [Ted Cruz: Ban vaccine passports](#), Senator Cruz (R-TX) says no one should be forced to get the COVID “vaccine”, people should be free to decide based on their health. So, he introduced legislation this week to prohibit any federal vaccine passport and to prohibit employers from requiring the COVID “vaccine”.

The Becker’s site shows: [“Vaccine passports: 23 states with bans, limitations & green lights”](#).

10 States Oppose Vaccine Passports Now

[Vaccine Passports: Where Your State Stands](#) says,

“In [Florida](#) and [Montana](#), executive orders prevent businesses, in addition to state institutions, from requiring patrons to provide proof of vaccination to gain entry or service from the business. In [Idaho](#), [Arizona](#), [South Dakota](#), [Utah](#), [South Carolina](#), [Arkansas](#), [Indiana](#), and [Texas](#), the ban on vaccine passports is generally limited to entities of the state government or (in the case of Texas) any business that receives state funds. Legislation is pending in the following states to prevent discrimination based on vaccination status and/or to prevent the use of vaccine passports: FL, NC, OK, HI, OR, RI, TX, WI, PA, and VT. Some governors have made positive statements, though have not yet taken action to prevent vaccine passports.”

Vaccine Push Coming From Employers

[Federal Government Gives Employers Green Light To “Incentivize” Workers To Get Vaccinated](#) reports:

“The Equal Employment Opportunity Commission has just quietly given American companies the green light to do whatever it takes to “incentivize” American workers to accept the coronavirus vaccine. As vaccinations continue to slow, and states beef up incentives including lotteries and cash prizes to any adults who agree to get vaccinated who haven’t already, the EEOC has just issued some long-awaited guidance on how far companies can go in pushing workers to be vaccinated. Some companies, including Delta Air Lines, [have said they won’t hire anyone who hasn’t already been vaccinated](#).”

Suit Against Hospital For Requiring COVID “Vaccine”

[“We Won’t Be Human Guinea Pigs”: 117 Doctors, Nurses Sue Over Forced “Experimental” Vaccine](#) says:

“Over a hundred doctors and nurses who work in the Houston Methodist hospital network have filed a lawsuit against the company, arguing that they don’t want to be forced to take an ‘experimental’ vaccine. This lawsuit could pave the way for other health care workers to make similar claims.

*According to the lawsuit, the company’s CEO, Marc Boom gave all the employees of the network, some 26,000 people, a deadline of June 7 to be vaccinated or be fired. A total of 117 plaintiffs are insisting that the hospital is ‘**illegally requiring its employees to be injected with an experimental vaccine.**’ The hospital is forcing the staff to be ‘human ‘guinea pigs’ as a condition for continued employment,’ the lawsuit says. ‘This is my body, this is my choice, and I don’t think employers, or anyone should mandate what goes into my body,’ Kim Mikeska, a registered nurse, [told](#) the Houston Chronicle.*

Houston Methodist nurse Jennifer Bridges, the lead plaintiff in the case, told the Washington Post this month that she had received ‘every vaccine known to man’ in the past, but believed the coronavirus vaccines needed further study. The lawsuit referred to the vaccines as ‘experimental COVID-19 mRNA gene modification injection.’ ‘It is a severe and blatant violation of the Nuremberg Code and the public policy of the state of Texas,’ attorney Jared Woodfill, who filed the lawsuit in Montgomery County, told local news, and he’s right. Because the current Moderna, Pfizer, and J&J vaccines have been only authorized by the FDA under Emergency Use Authorization (EUA), the safety and effectiveness data are still being collected. This means the current mass vaccination program is an experiment in an on-going study in which researchers may still find small effect-size side effects.”

[Take Control of Your Family’s Health — Immune System Support Kit \(Ad\)](#)

The article adds:

“It is a fact that vaccines that receive EUA are considered experimental until the FDA formally approves it as it is entirely possible that a rare side effect will be found after mass vaccination allows a longer term of observation on a larger number of people. Therefore, it can be argued that forcing employees to take the vaccine is a medical ethics violation.

*According to the [1947 Nuremberg Code](#): **The voluntary consent of the human subject is absolutely essential.** This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should*

have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental subject there should be made known to him the nature, duration, and purpose of the experiment; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment.

*The fact that these vaccines are currently under EUA makes all attempts to mandate them, a direct violation of the Nuremberg Code as the number one premise behind it is that **‘the voluntary consent of the human subject is absolutely essential.’** There is nothing voluntary about vaccine passports, forced vaccinations, or any other form of government or employee coercion methods to increase COVID-19 vaccination rates.”*

In 117 EMPLOYEES SUE HOSPITAL OVER VACCINE MANDATE, Jennifer Bridges, R.N., said the suit now has 117 people and at least 50 more are expected to join. She said that hospitals and hospital workers across America are watching this case.

Massive London Protest Against Vaccine Passport

In [MEDIA CAUGHT LYING ABOUT LONDON MEGA-RALLY](#), Del Bigtree of The Highwire showed the massive London rally on May 29 where hundreds of thousands of people protested against the lockdown, COVID vaccine, and vaccine passports. To hide the extent of the growing opposition to the COVID “health” policies, the corporate media claimed only hundreds of people participated.

ICAN Legal Team Defeating COVID “Vaccines”

The Washington Post article Resistance to vaccine mandates is building. A powerful network is helping, featured Del Bigtree’s Informed Consent Action Network (ICAN).

The article reports:

“A New York firm has filed suit or sent letters to employers in several states as part of an effort spearheaded by one of the largest anti-vaccination groups in the country. The Americans lodging complaints against coronavirus vaccine mandates are a diverse lot — a sheriff’s deputy in North Carolina, nursing home employees in Wisconsin and students at the largest university in New Jersey. But their resistance is woven together by a common thread: the involvement of a law firm closely tied to the anti-vaccine movement....

The Informed Consent Action Network, a Texas-based nonprofit group founded by former daytime television producer Del Bigtree that campaigns against requiring vaccines ... has advertised Siri & Glimstad’s services and sought plaintiffs for challenges to mandates. ‘If you or anyone you know is being required by an employer or school to receive a covid-19 vaccine, ICAN is offering to support legal action on your behalf to challenge the requirement,’ reads an advertisement on a blog run by Children’s Health Defense, a group founded by Robert F. Kennedy Jr....

At stake in this latest contest is whether hospitals, law enforcement agencies and others can require employees to take a vaccine that was made available in an expedited process permitted during a public health emergency — and, likewise, whether schools may require the shots for students, faculty and staff members in the same way many require familiar vaccines for measles and chickenpox. There is little case law on the matter, with only one vaccine, for anthrax exposure, previously cleared in a similar way.”

The article points out:

“ICAN is already claiming victory, thanks to the work of a legal team led by Siri & Glimstad’s managing partner, Aaron Siri. ‘Employers and schools that previously required the covid-19 vaccine have dropped those requirements,’ the group declares in its ad on the Children’s Health Defense blog. ‘This includes an employer that did so on the heels of ICAN’s legal team challenging its mandate in court.’”

The article concludes:

“Putting ‘your imprint on an early area of law’: This month, ICAN updated its notice seeking plaintiffs for possible litigation, saying it is ‘no longer accepting cases for legal action.’ Some legal experts suggested the group may be pulling back because it has accomplished what it set out to do. Its attorneys have made their mark on the early legal contest over vaccine mandates, through commentary as well as legal communications and filings, said Reiss, the University of California professor. She noted that other lawsuits filed against coronavirus vaccine mandates ‘follow very closely Siri’s piece in Stat.’”

Vaccine Passport: End of Freedom In the West

[Are We Being Set Up for Mass Depopulation?](#), an article by [Dr. Joseph Mercola](#) links to the interview with Michael Yeadon, PhD., former Vice President and Chief Science Officer of Pfizer for 16 years and founder of successful pharma start-up. The article points out:

“Yeadon has a degree in biochemistry and toxicology and a research-based Ph.D. in respiratory pharmacology. He’s spent 32 years of his career working for large pharmaceutical companies, and 10 years in the biotechnology sector.”

Dr. Yeadon says:

“I’m in favor of all modes of new medical treatments, whether they’re biologicals or vaccines, small molecules, creams, sprays, ointments, whatever, but I’m fervently against unsafe medicines or medicines used in an inappropriate context. Some of the things I’m going to say are not favorable to the current crop of gene-based vaccines and it’s [because] they’re being inappropriately used. I don’t think they have a sufficient safety profile to be used as a sort of wide-spectrum public health prophylactic.’ In the interview, which is part of the documentary ‘[Planet Lockdown](#),’ Michael Yeadon, Ph.D., a life science researcher and former vice-president and chief scientist of allergy and respiratory research at Pfizer, shares his views on the COVID-19 pandemic.”

“ I'm absolutely terrified that the combination of vaccine passports and top-up vaccines is going to lead to mass depopulation, deliberate execution, potentially of billions of people. ~ Michael Yeadon, Ph.D.”

Naomi Wolf: Mandatory Vaccine Passport Could Lead To The End Of Human Liberty In The West: Wolf says:

“I cannot say this forcefully enough: This is literally the end of human liberty in the West if this plan unfolds as planned. ‘Vaccine passport’ sounds like a fine thing if you don’t understand what these platforms can do. I’m the CEO of a tech company. I understand what this platform does.

It is not about the vaccine or the virus. It is about your data. What people need to understand is that any other functionality can be loaded onto that platform with no problem at all. What that means is that can be merged with your PayPal account, digital currency, Microsoft is talking about merging it with payment plans, your networks can be sucked up, it geolocates you wherever you go. All of your medical history can be included — this has already happened in Israel. And six months later, we’re hearing from activists that it is a two-tiered society and basically activists are ostracized and surveilled continually. It is the end of civil society and they are trying to roll it out around the world.

It is absolutely so much more than a vaccine pass, it is — I cannot stress enough that it has the power to turn off your life, or to turn on your life, to let you engage in society or be marginalized. And by the way, IBM has a horrible history with Nazi Germany... with punchcards that allowed the Nazis to keep lists... in such a way that they could round up Jews, round up dissidents and opposition leaders. It is catastrophic, it cannot be allowed to continue... How does [China] keep a billion people under the thumb of a totalitarian regime. The CCP can find any dissident in five minutes, and that can happen here literally within months.”

Vaccine Passport Pushback

COVID Vaccine Passports Are Yellow Stars shows that while the COVID vaccine may cripple or kill you, the vaccine passport will enslave you!

Senator Rand Paul’s (R-KY) op ed in The Hill We must resist the latest COVID-era power grab: the ‘vaccine passport’ says:

“You’ve all heard my opinions on government bureaucrat Anthony Fauci. But it goes wider and deeper than any one person. And now we are in danger of their creeping fascism staying in our lives forever if we don’t stand up and resist. The newest power grab comes in the form of an alleged “Vaccine Passport” which would determine your social suitability to engage in your everyday life. Want to go to the store? Show your vaccine card. Want to go to a restaurant or concert? Did you tell the government

what vaccines you've had? Want to travel? VACCINE PAPERS PLEASE. I have been warning for a full year about the slippery slope that our freedoms were being pushed down. Even I wasn't sure it would end with full on vaccine fascism....

We can't let government tyrants and media fearmongers push us into accepting this terrible idea that we need their permission to go back to our lives. I know for a fact, they want to keep this power. We should never have let them take it in the first place in the form of lockdowns, mandates and closings. Now that we know those didn't work, and that they intend to keep pushing anti-science, anti-freedom ideas, we must resist. The freedom part is easy. The science part gets ignored by the media and those who seek to keep power....I say enough. I urge everyone to get the vaccine if you think you need or want it. And then I urge everyone in America to throw away their masks, demand their schools be open, and live your lives free of more government mandates and interference. Burn your vaccine passport if they try to give it to you, and vote out any politician who won't do the same."

Sign Petition To Stop COVID "Vaccine" Passports

In the video [The Truth About the COVID-19 Vaccine](#), Dr. Simone Gold, founder of [America's Frontline Doctors](#) explains that the threat of a COVID vaccine passport is not coming from the US government, but from corporations like the airlines. Qantas said it plans to require proof of vaccination. Dr. Gold points out that if the executives of the top six airlines impose a vaccine requirement, it will be hard to stop.

When the [Stop Medical Discrimination](#) petition has 1 million signatures, Dr. Gold plans to take it to the airlines. Help this campaign by signing the petition now and encourage your family, friends, neighbors, and co-workers to sign it.
