

Deadly NATO Weaponry is Forcing Russia to Expand War on Ukraine

Description

RUSSIA/USA: The HIMARS system is inflicting unacceptable casualties forcing Putin to call an emergency meeting of the DUMA on July 15. Since these rockets are guided by US Satellites, the US and Russia are already in a state of war. By offering Russian citizenship to all Ukrainians, Putin is signalling that Russia intends to absorb the whole country by necessity.

“Before each bombardment by the M142 HIMARS, Western, civilian or military observation satellites were spotted above the targeted sites. So to stay on the bombardment of Novaya Kharkova mentioned above, 3 days before the ukro-Atlanticist strikes, a US commercial satellite, the Worldview-2 was vertical to the sector.

Even if factually the use of these US space resources for the benefit of the Ukrainian forces constitutes a flagrant “cobelligerence”, legally it is their destruction by the Russian aerospace forces which will constitute a “casus belli”...

And yet, if the volume of these types of guided weapons systems increases, Russian forces will have to deal with getting rid of these American vultures (satellites) . And perhaps this new threat from NATO on the Russian front will weigh in the decisions that will be taken on July 15, 2022 during an extraordinary convocation of the Duma, the Russian parliament, undoubtedly centered around the conduct of military operations in Ukraine and their necessary radicalization.”

7 killed and more than 80 injured including 15 children following the bombing of Novaya Kakhovka by an American HIMARS.
