## Description

This is absolutely Democide. Democide is a concept proposed by American political scientist Rudolph Rummel to describe “the intentional killing of an unarmed or disarmed person by government agents acting in their authoritative capacity and pursuant to government policy or high command.”

According to Rummel, this definition covers a wide range of deaths, including forced labor and concentration camp victims, killings by mercenaries and unofficial private groups, extrajudicial summary killings, and mass deaths due to governmental acts of criminal omission and neglect, such as in deliberate famines like the holodomor, as well as killings by de facto governments, i.e. civil war killings.

This definition covers any murder of any number of persons by any government. Rummel created democide as an extended term to include forms of government murder not covered by genocide. According to Rummel, democide surpassed war as the leading cause of non-natural death in the 20th century.

And this was prior to covid and the murderous fake vaccines. Source: The Mark Steele channel on SixthSense.
