

## Denazification of Ukraine: operational summary (April 13, updated)

### Description

#### UKRAINE:

14:02 Another active military facility was discovered near the military airfield in Mirgorod. The building at Bagachanskaya 55 houses the headquarters of the 831st tactical aviation brigade of the Ukrainian Air Force.

13:59 Ukrainian armed formations in Nikolaev continue to use the building of the Amstor shopping center and the Praktiker hypermarket. Early in the morning, residents noticed two military trucks near the northern facade of the complex, waiting for the loading of fighters. Probably, this was a rotation of personnel from the territory of the nearby building of the National Shipbuilding University, where the positions of the Armed Forces of Ukraine are also located.

13:57 Reinforcements from the fighters of the National Guard units arrived at school No. 78, occupied by the Azov militants, in the south-west of Kharkov. A few days ago, several armored vehicles were also seen near the building. Local residents are extremely dissatisfied with the presence of Ukrainian armed forces and are afraid of strikes on the object, which could hit nearby residential buildings.

12:54 FSB detained two citizens in Crimea who called for terrorism and the murder of deputies.

12:53 The city of Balakleya is completely under the control of the RF Armed Forces. A Russian banner flies over the administrative building. Despite the constant shelling by the Armed Forces of Ukraine, Russian humanitarian aid is regularly delivered to the city.

12:47 The head of the temporary military-civilian administration of Kakhovka Pavel Filipchuk:

“Our Ukrainian authorities have always made life difficult for both agricultural producers and ordinary citizens. On the 24th, at night, all the security forces, all state employees were taken out of here. They simply left people face to face with those military men who came to our region. And now we are declared traitors, criminals.”

11:47 The Russian military on the territory of one of the military units abandoned by the Armed Forces of Ukraine in the Kherson region found a UAV with liquid containers and sprayers.

“Presumably, these aircraft could be used to spray poisonous substances to harm both the Russian Armed Forces and the civilian population and farmland,” the Russian serviceman said.

11:46 A secret archive with the data of the Ukrainian security forces was found in the children’s hospital in Kherson. In the archives during the search, they found service characteristics, phone numbers and addresses of current police officers of the Kherson region.

11:44 In total, since the beginning of the special military operation, the following have been destroyed: 130 aircraft, 103 helicopters, 244 anti-aircraft missile systems, 447 unmanned aerial vehicles, 2169 tanks and other armored combat vehicles, 243 installations of multiple launch rocket systems, 931 field artillery guns and a mortar, as well as 2076 units of special military vehicles.

10:57 Missile forces and artillery hit 693 enemy targets, including: 676 concentrations of personnel and equipment, 11 command posts, 5 warehouses for logistics.

10:51 Russian air defense systems shot down two unmanned aerial vehicles in the air over the village of Afanasievka.

10:47 Operational-tactical aviation of the Russian Aerospace Forces hit 46 military facilities of Ukraine. Among them: two command posts and a radar station in the Borovoye area, two installations of multiple launch rocket systems, as well as 4 areas of concentration of Ukrainian military equipment in the Borovoye and Peski-Radkovskoye areas.

10:41 During the night, high-precision sea and air-based missiles in the areas of the settlements of Sadovoye and Chudnov destroyed two large depots of missile and artillery weapons of Ukrainian troops. Also, four Ukrainian helicopters were destroyed at the Mirgorod military airfield – two Mi-24s and two Mi-8s.

09:55 In Ukraine, more than 25 thousand weapons were distributed uncontrollably, which increases the risks of terrorism both in the European region and beyond.
