

Depopulation is Purpose of Homosexuality & Feminism — 1969 Rockefeller Memo

Description

There it is in black and white. Depopulation is the reason for the encouragement of homosexuality and feminism.

**“Encourage increased homosexuality”
” Encourage women to work” along with
” Fertility control agents in water supply.”**

They put these agents in our cultural water supply.

They put these agents in the toxic “vaccines” and used a phony pandemic to trick people into taking them.

[In a memo March 11, 1969](#), Frederick S. Jaffe, Vice-president of Rockefeller-sponsored *Planned Parenthood – World Population*, outlined examples of proposed measures to reduce United States fertility.

Among the measures suggested are: 1) Restructure family: a. **postpone or avoid marriage** and b. alter ideal family size. 2) Encourage increased homosexuality. 3) Educate for family limitation. 4) Fertility control agents in water supply. 5) Encourage women to work. (Emphasis mine.)

Thanks to elite social engineering, the US fertility rate has declined from 2.5 to 2 children per woman since 1970. Significantly the fertility rate for non-Hispanic whites is 1.8 in the US. In Europe and Canada, it is less than 1.5.

If the media were on our side, it would recognize that women's most fertile years are 18-25 and would be promoting programs for women entering the work force in their 30's after their children are in school. Instead the media pushes sex as totally separate from reproduction, and downplays mature thinking about family and posterity.

The elite agenda is to prevent women from starting families by encouraging them to waste these years starting a career and competing with men. By the time they are 30 and ready for marriage and children, men are much less interested in them

As [one female blogger](#) lamented, "They told us 'You can have it all, Marriage, children, a fantastic career!' We have ourselves to blame for believing them."

She notes that "women still strive to marry up. Men still tend to marry down. The two sexes' going in opposite directions has led to an epidemic of professional women missing out on husbands and kids."

She cites Sylvia Ann Hewlett, an economist and the author of *"Creating a Life: Professional Women and the Quest for Children,"* (2002) who found that 55 percent of 35-year-old career women were childless. Forty seven per cent of 40-something women with professional degrees have no children. Only 14% of these women said they didn't want children.

Aaron Russo, director of *America :From Freedom to Fascism*, recalls he was approached for his ideas by a younger member of the Rockefeller family in 1995. " He asked me what I thought of the 'women's movement,' and I told him that I support equal opportunity," [Russo continues.](#)

“He looked at me and said, ‘You know, you’re such an idiot in some ways. We’ – meaning the people he works with – ‘created the women’s movement, and we promote it. And it’s not about equal opportunity. It’s designed to get both parents out of the home and into the workforce, where they will pay taxes. And then we can decide how the children will be raised and educated.’ That’s how they control society – by removing the parents from the home and then raising the children as the elitists see fit.”

(The contact also predicted, in the year 2000, a 9-11 style event and an invasion of the Middle East to secure oil.)

CONCLUSION

More and more people are realizing that something is fundamentally wrong with society. The truth is too painful for most to accept.

Our money is nothing but “credit” extended by a private banking cartel based in the City of London called “the Crown.” (The names of the shareholders of the Bank of England, the Fed etc. are kept secret.) They create this credit out of thin air and back it with our taxes and interest. Modern history is the process of translating this monopoly of credit into a monopoly of power. Globalization means all nations and all minds will be colonized by this stateless financial power.

This cartel is behind terrorism, feminism, Communism, Zionism, most ‘isms and most wars. Their agenda is to divide and conquer. They need to destroy the four pillars of human identity (race, religion, nation and family) in order to create their New World Order dictatorship (“globalism.”)

The bankers use the media to distract, deceive and destabilize society while fostering the illusion of democracy and freedom. The *Newsweek* cover story is classic psychological warfare. The bankers perfected their techniques against Germany in World War II and put the same psy ops experts in charge of their media empires.

The bankers subscribe to Illuminism, a pagan Luciferian creed. Scoundrels who have literally sold their souls to the devil run the world. Their goal is to sever our connection to God and block mankind’s intended spiritual and material development. That is why they promote decadence and dysfunction.

As people become aware of the awful truth, hopefully they will declare mental and spiritual independence and the diabolical beast that the mass media represents will choke on its own vomit.
