

Depopulation taking place under our eyes! Birth reduction in Taiwan: -23.34%, in UK: -8%, in Germany: -13%... And we all know what's causing it

Description

We all know what caused this, and no, covid infections is not among that.

(Article republished from [StrangeSounds.org](https://strangesounds.org))

Taiwan:

Is Taiwan being depopulated?

An "unthinkable", 26-sigma drop in the birth rate in Taiwan reduced births by 23.34% in May 2022, compared to a year ago.

Highly vaccinated Taiwan had no Covid until this May, so what is to blame for the shortage of babies? <https://t.co/aRwufyLZnp>

Germany:

Beispielloser Geburtenrückgang im 1. Quartal. In den Vorjahren waren die Geburten recht konstant, selbst der Lockdown 2020 hat keine merklichen Spuren hinterlassen.

Eine mögliche Erklärung liegt hier → 1/3 pic.twitter.com/obgfoLEvcE

This is what we normally have in Germany:

In general birth rates are surprisingly stable year-to-year with long term cycles. There are seasonal peaks and troughs which are pretty reliable. Every midwife knows.

But this is well outside normal.

Officials try to calm everybody... Not with us!

The German national office for stats claims that the large birth decrease in Q1 2022 could not have been caused by vaccinations because in Q2 2021 young people did not get vaxxed.

Actually, ~40% of 18-59yo were vaxxed with 2 doses by end of Q2.

Grundimmunisierung = 2 vax doses <https://t.co/Btyxgukdfc> pic.twitter.com/vZtAUIDayl

UK:

And it's not just Germany. This is an 8% drop even before March 2022 figures are released in the [@UKHSA](#) vaccine surveillance reports.

And yeah, you can say "but it's only 2 months" – so let's see the latest data. The UKHSA has it. <https://t.co/JkwkFoRY8q> pic.twitter.com/lQ7lPkQogl

North Dakota, US:

Not just UK, not just Germany.

North Dakota provisional data showing another drop of 11% for Feb-April.

Unprecedented for a state that has a stable birth rate with SD<5% of mean

There are no coincidences...

There are no coincidences, only the illusion of coincidence. <https://t.co/OQVXuRa8Sa>
