

Destroying the Demonic Medical Industrial Complex, Dr. Stella Exposes Depopulation Vaxx Program

Description

One of the only bright sides of the war in Ukraine is that, finally, it seemed to distract everyone enough that Covid restrictions went away. But that might have been too optimistic. Elites still have a use for the control that Covid-19 gives them, so they're trying to ignite another panic about the virus. This time, the surge is in Asia, where there are hundreds of thousands of cases a day in South Korea now. South Korea went full-on totalitarian for two years to suppress the disease. Basically everyone is vaccinated. Doesn't matter. Now it's their turn. Big Pharma says thanks for the billions of dollars.

Dr. Stella Immanuel has been on this show many times. She's told us about her success caring for patients by praying with them for their recovery, which caused The Daily Beast to go into a Satanic screaming frenzy.

Dr. Immanuel says that she's come to the conclusion that the entire point of the Covid vaccine wasn't protecting people from a virus. Instead, the objective was eugenics and depopulating the Earth.

Doctor Immanuel also says that she has discovered a variety of treatments and devices she says can keep people out of hospitals and off of the remdesivir/ventilator death protocols.
