

## Disney doubles down on promoting pedophilia, wants all children GROOMED in public schools

### Description

USA: The people who run Disney [are livid](#) over the fact that Florida Gov. Ron DeSantis signed into law new legislation that aims to protect children from being groomed into the Cult of LGBTQ while attending public school.

The Parental Rights in Education bill, which the corporate-controlled media falsely dubbed as the “don’t say gay” bill, is designed to protect students from being indoctrinated and brainwashed by radical teachers and counselors who try to push homosexuality or transgenderism on them. And Disney is upset about this.

“Our goal as a company is for this law to be repealed by the legislature or struck down in the courts, and we remain committed to supporting the national and state organizations working to achieve that,” the official Walt Disney Company Twitter account tweeted in protest against children having the right to not have their minds sexually molested by LGBTQ perverts.

“We are dedicated to standing up for the rights and safety of LGBTQ+ members of the Disney family, as well as the LGBTQ+ community in Florida and across the country.”

According to Disney, which claims to be “family-friendly,” the Florida bill “should never have passed and should never have been signed into law.”

## Disney hates white people and loves pedophilia

Disney has been on a pro-pedophilia track for many years now. Back in 2017, for example, the company [filed a patent](#) for sex toy robots for children.

Disney also has [an obsession](#) with demonism and witchcraft, and uses any opportunity it gets, whether at theme parks or in television shows, to expose innocent young children to these subjects.

In the early days of the Wuhan coronavirus (COVID-19) *plandemic*, Disney theme parks were [arresting patrons](#) who refused to submit to temperature checks.

Disney also [supports slavery](#), having filmed movies like *Mulan* in Xinjiang, China, where Uyghur Muslims are being tortured in concentration camps.

More recently, the Disney empire has been [pushing a “woke” agenda](#) on its employees that includes bashing on white people and promoting critical race theory (CRT).

On and on the list goes – and to think, millions of Americans still willingly visit Disney theme parks and watch Disney movies and TV shows with their children, shelling out their hard-earned cash to the pedophiles in charge of the brand.

DeSantis, meanwhile, issued a statement of support for Florida parents and their children, who now have a reprieve, albeit a minor one, from the endless barrage of assault coming from the Cult of LGBTQ.

“Parents’ rights have been increasingly under assault around the nation, but in Florida we stand up for the rights of parents and the fundamental role they play in the education of their children,” DeSantis said.

“Parents have every right to be informed about services offered to their child at school, and should be protected from schools using classroom instruction to sexualize their kids as young as five years old.”

Lt. Gov. Jeanette Nuñez also issued a statement that condemns companies like Disney for opposing the legislation.

“This bill refuses to allow school boards and teachers unions the ability to hide information about students from their parents,” she said.

“In addition, it prohibits classroom discussion in grades K-3 on gender orientation and sexual identity. Throughout this legislative session, this bill has been maliciously maligned by those who prefer slogans and sound bites over substance and common sense.”

Nuñez promised that neither she nor DeSantis have any plans to back down from these “woke corporations” and their “same tired tactics that are steeped in hypocrisy.”

“As a mother of three, I am committed to protecting the rights of parents,” she concluded.
