

## Doctors, Scientists and Professionals from More than 34 Countries Declare “International Medical Crisis” due to Diseases and Deaths Caused by COVID-19 Vaccines

### Description

Around 403 doctors, scientists, and professionals from more than 34 countries declared that there is an international medical crisis due to the diseases and deaths following the administration of products known as “COVID-19 vaccines,” according to James Roguski Substack.

“We are currently witnessing an excess in mortality in those countries where the majority of the population has received the so-called “COVID-19 vaccines,” according to the news release. “To date, this excess mortality has neither been sufficiently investigated nor studied by national and international health institutions.”

From the Declaration:

The large number of sudden deaths in previously healthy young people who were inoculated with these “vaccines”, is particularly worrying, as is the high incidence of miscarriages and perinatal deaths which have not been investigated.

A large number of adverse side effects, including hospitalisations, permanent disabilities and deaths related to the so-called “COVID-19 vaccines”, have been reported officially. The registered number has no precedent in world vaccination history.

Examining the reports on CDC’s VAERS, the UK’s Yellow Card System, the Australian Adverse Event Monitoring System, Europe’s EudraVigilance System and the WHO’s VigiAccess Database, to date there have been more than 11 million reports of adverse effects and more than 70,000 deaths co-related to the inoculation of the products known as “covid vaccines”.

We know that these numbers just about represent between 1% and 10% of all real events.

Therefore, we consider that we are facing a serious international medical crisis, which must be accepted and treated as critical by all states, health institutions and medical personnel worldwide.

Therefore, the following measures must be undertaken on an urgent basis:

1. A worldwide 'stop' to the national inoculation campaigns with the products known as "COVID-19 vaccines".
2. Investigation of all sudden deaths of people who were healthy previous to the inoculation.
3. Implementation of early detection programmes of cardiovascular events which could lead to sudden deaths with analysis such as D-dimer and Troponin, in all those that were inoculated with the products known as "COVID-19 vaccines", as well as the early detection of serious tumours.
4. Implementation of research and treatment programmes for victims of adverse effects after receiving the so called "COVID-19 vaccine".
5. Undertaking analyses of the composition of vials of Pfizer, Moderna, Astra Zeneca, Janssen, Sinovac, Sputnik V and any other product known as "COVID-19 vaccines", by independent research groups with no affiliation to pharmaceutical companies, nor any conflict of interest.
6. Studies to be conducted on the interactions between the different components of the so called "COVID-19 vaccines" and their molecular, cellular and biological effects.
7. Implementation of psychological help and compensation programmes for any person that has developed a disease or disability as a consequence of the so called "COVID-19 vaccines".
8. Implementation and promotion of psychological help and compensation programmes for the family members of any person who died as a result of having been inoculated with the product known as "Covid-19 vaccines".

Consequently we declare that we find ourselves in an unprecedented international medical crisis in the history of medicine, due to the large number of diseases and deaths associated with the "vaccines against Covid-19". Therefore, we demand that the regulatory agencies that oversee drug safety as well as the health institutions in all countries, together with the international institutions such as the WHO, PHO, EMA, FDA, UK-MHRA and NIH respond to this declaration and act in accordance with the eight measures demanded in this manifesto.

This Declaration is a joint initiative of several professionals who have been fighting for this cause. We call on all doctors, scientists and professionals to endorse this statement in order to put pressure on the entities involved and promote a more transparent health policy, do consider [signing](#).
