

Dr. Ben Marble: They Vaccinated Half Of The Planet With Slow Acting Lethal Injections!

Description

USA: We all know that vaccines are very dangerous, and people can't get them anymore!

They shouldn't allow that poison to get into their bloodstream because too many people have died, and there are many young persons among them.

Dr. Ben Marble of myfreedoctor.com joined The Alex Jones show to speak about the reality of half the planet being dosed with slow-acting lethal injections.

If you want to hear more about the vaccines and what is inside of them, watch the video below:
