True The Vote has the names and identities of almost every ballot trafficker they caught in Wisconsin but law enforcement hasn't bothered to ask them because they're in on the steal

The Maricopa audit was making headlines in the past; the MSM refused to cover Wisconsin hearings.

[The Gateway Pundit](#) reported:

Dave Michaels spoke with Catherine about her investigation into the hundreds of Democrat ballot traffickers across the nation in the 2020 presidential election.

Catherine Engelbrecht dropped several bombs during the interview earlier today.

First Freedoms Foundation has filed an amicus brief in the Wisconsin Supreme Court on behalf of national election integrity group True the Vote.

During the interview, Dan announced that True the Vote purchased 25 terabytes of cell phone data from Milwaukee and other Wisconsin communities in the two weeks before the elections, from October 20th to November 3rd. True the Vote examined the data and found over 53,000 visits to the drop boxes. True the Vote examined the data and looked at who visited the drop boxes in Wisconsin and found over 107 of those people visited the drop boxes over 2,000 times! Several of the people visited the boxes over 15 times per day. We are witnessing similar antics in all of the battleground states.

"That's the gateway to all the fraud. You have to have bad records first." – Catherine Engelbrecht of True the Vote testifying on Wisconsin's dirty voter rolls at Assembly Campaign and Elections Committee. [#wwright](#) [#wipolitics](#)
