

Emails Show CDC Directed BigTech's Propaganda & Censorship Campaign on C-19 'Misinformation'

Description

USA: The Centers for Disease Control and Prevention was the 'man behind the curtain' that directed Facebook's censorship campaigns against people 'questioning the science,' while surreptitiously amplifying government propaganda regarding its Covid pandemic policies.

Such are the new revelations from a lawyer who is [suing](#) the Food and Drug Administration for hiding its Pfizer clinical trials data from the public: Attorney Aaron Siri.

Emails between CDC and Facebook, obtained on behalf of [@ICANdecide](#), show CDC guiding FB's messaging. For example, CDC tells FB the "focused messaging for the next week" includes "Rethink travel, gather virtually, wear a mask" followed by patriotic slogans.

"Emails between CDC and Facebook, obtained on behalf of @ICANdecide, show CDC guiding FB's messaging," Siri tweeted. "For example, CDC tells FB the 'focused messaging for the next week' includes 'Rethink travel, gather virtually, wear a mask' followed by patriotic slogans."

The emails represent some of the most direct evidence of Big Tech collusion with government agencies and officials to suppress political dissent and quell citizens' speech. They can be read below.

[Click here to open SCRIBD file](#)

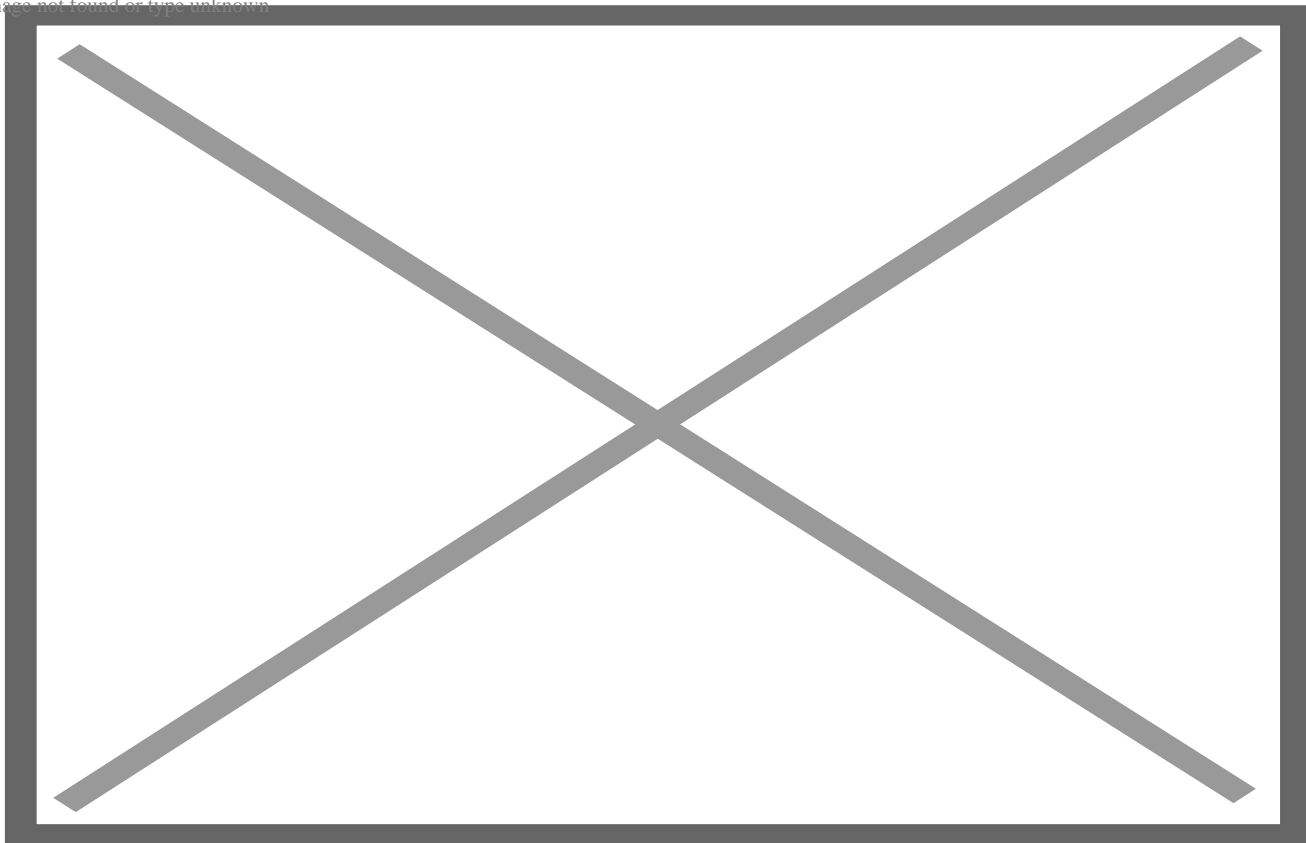

"Some group we need to act," [Amira Boland](#) of wrote. "Some groups we need to act: Midwestern men 35+; Non-urban; Gen Z – College students; Millennials."

The emails included targeted holiday messaging for Americans. “Messages of duty, e.g., ‘For your family, for you country,’ seem to be most resonate (sic) to youg individuals and men. A summary of behavioral insights for comms is attached.”

Image not found or type unknown

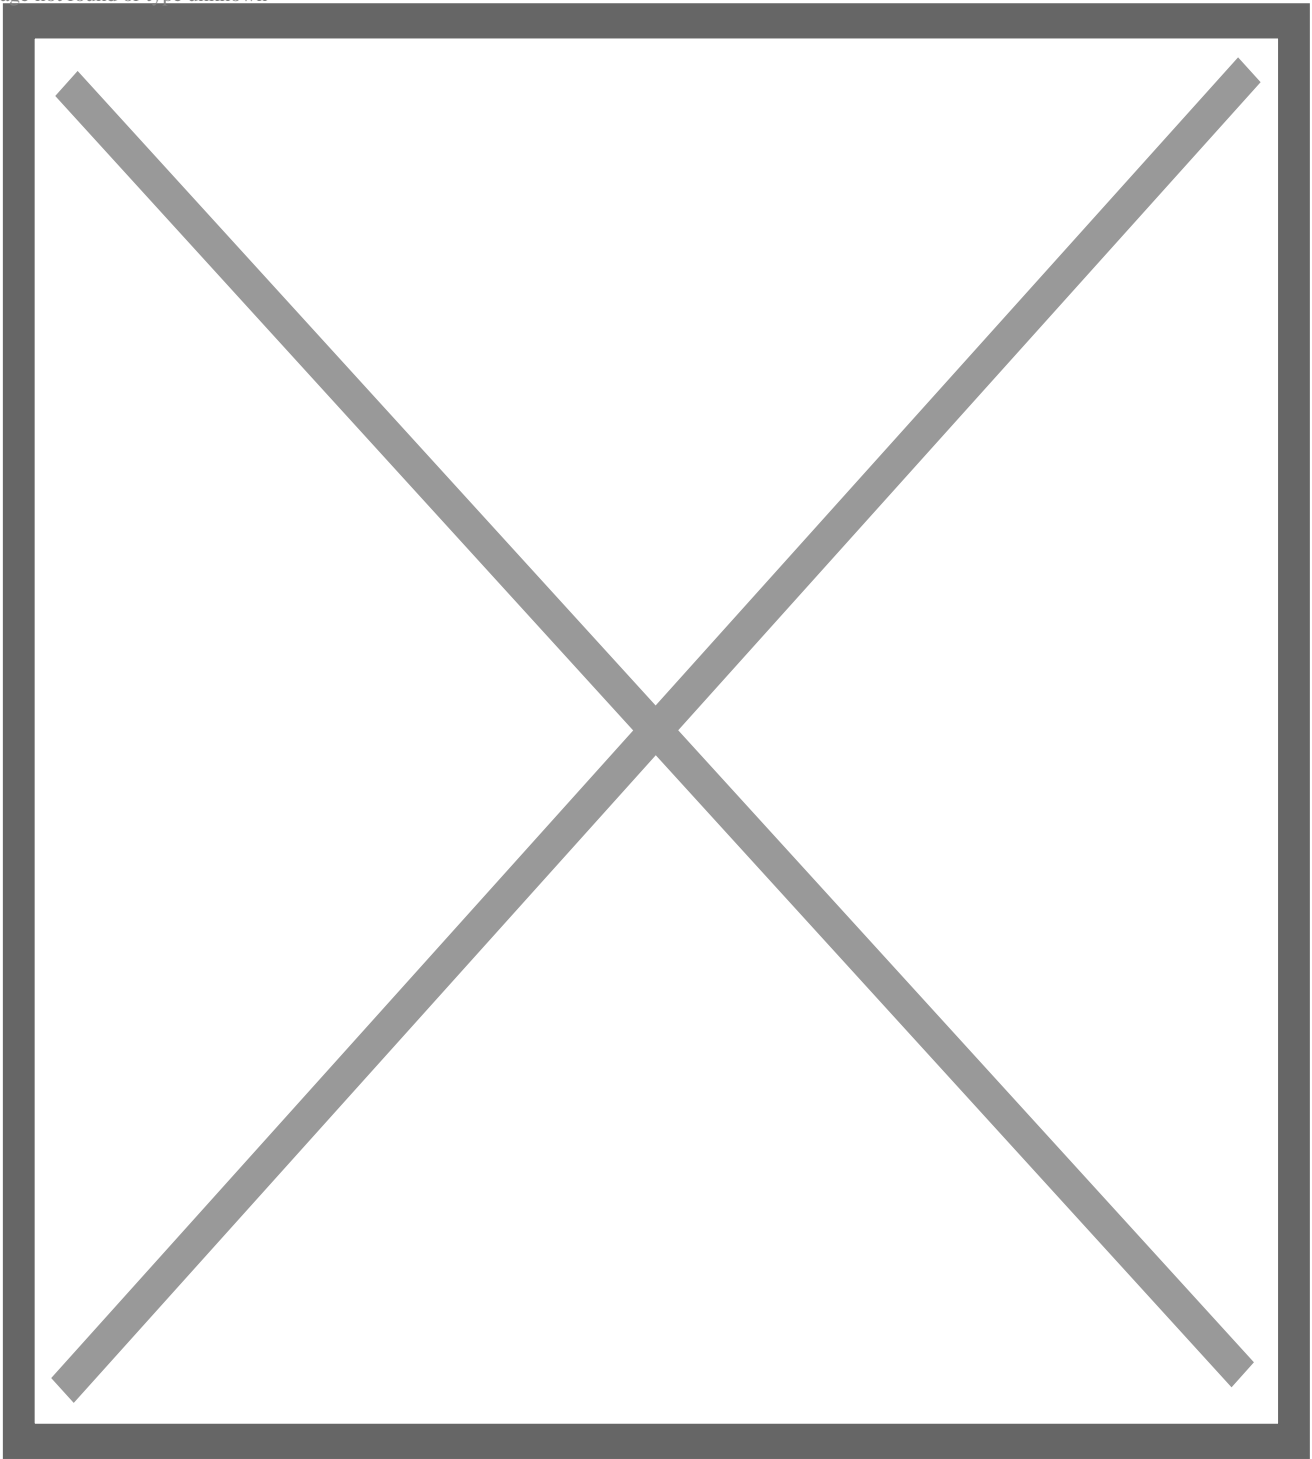

The correspondence included directives on mask-wearing, family gatherings, and referrals to the CDC. (Facebook users also note that the company directs users to go to the CDC whenever anything about the virus or vaccines is mentioned, even on posts and in group conversations.)

It gets more concerning: Facebook’s Public Policy Team announced an “Alliance for Advancing Health Online,” which is in partnership with Merch (!), the World Health Organization, the World Bank, the MIT Initiative on the Digital Economy, Sabin Vaccine Institute, CDC Foundation, the Bay Area Global Health Alliance, and the Vaccine Confidence Project at the London School of Hygiene and Tropical Medicine.”

Image not found or type unknown

The correspondence announces that both Facebook and Merck are contributing \$40 million to the initiative, which is “focused on advancing public understanding of how social media and behavioral sciences can be leveraged to improve the health of

communities around the world.”

Big Tech and Big Pharma is colluding with Big Government to “leverage social media and behavioral sciences” to dictate the public health conversation and limit Americans’ speech, access to information, and personal medical decisions. What could go wrong?
