

Epstein's Sex Clients: TGP With Legal Action To Unseal And Identify The Global Elites That Abused Trafficked Minors!

Description

USA: Everyone in the world knows who Jeffrey Epstein was, and everyone knows that he didn't kill himself in that cell.

The surveillance cameras weren't working precisely that day, so we can't find out more on that topic.

We all know that Epstein and his partner Ghislaine Maxwell were degenerate villains who groomed and trafficked minor girls to be used and abused by Epstein, his elite colleagues, and friends.

He committed "suicide" before he could get to trial. But, Maxwell was convicted of sex trafficking minors in December 2021, and 23 women testified in court that Epstein, in the past, trafficked and abused them.

Who are those women? We still don't know! The identities of Epstein's Sex Clients remain unknown.

Neither one media outlet has petitioned the court to unseal the identities of Epstein's Clients.

The Gateway Pundit will change this. Their lawyers, Marc Randazza and Jay Wolman of the Randazza Legal Group filed a motion to intervene in the Guiffre v. Maxwell case in the US District Court for the District of New York.
