

EXCESS MORTALITY: Over 2400 Americans are DYING each day following vaccine mandates... Ed Dowd unveils alarming, evidence-based data

Description

USA: Today we feature an interview with Ed Dowd, author of *Unknown Causes: The Epidemic of Sudden Deaths in 2021 & 2022*. Ed Dowd, along with his team of analysts, has assembled the most comprehensive and compelling data revealing excess mortality following the introduction of covid vaccines. His website where some of these results are presented is **TheyLiedPeopleDied.com**.

Ed Dowd is also head of The Humanity Project found at this link:

Today he joins me in an interview to discuss his findings, warning that sooner or later, the medical and scientific community will be unable to ignore the fact that **over 2,400 Americans are dying each day** — almost certainly from vaccines — which comes to about **900,000 Americans killed in a year**.

Here's just one chart from Ed Dowd that shows excess deaths following the introduction of covid-19 "vaccines" (experimental mRNA injections):

Across the population, Ed Dowd explains in the interview, **excess mortality is running about 32%**. Around 7,700 Americans routinely die each day, and 32% of that comes to 2,400+ deaths per day. That's only counting America. Global deaths are, of course, far higher.

Credible estimates of global deaths from covid-19 vaccines have been compiled by other analysts and experts, and they claim that at least **20 million people have already been killed worldwide** from covid-19 vaccines, making the scale of this "vaccine holocaust" more than triple the size of the historical Holocaust atrocity.

Trump announces a run for the presidency; Texas Gov. Abbott declares an “invasion”

Also in today's hard-hitting podcast, we cover President Trump's announcement for 2024, Texas Gov. Abbott's declaration of a border invasion, Sen. Minority Leader Mitch McConnell taking millions of dollars from FTX (the collapsed crypto money laundering scam), and new details on how Google rigged the midterm elections with selective displaying of “get out and vote” messages (hint: Only Democrats saw the reminder.)
