

EXCLUSIVE: DEMOCRATS IMPLICATED — Georgia Ballot Traffickers Were Using Democrat Officials' Offices as Stopping Points During Ballot Drop Runs

Description

USA: In late January film producer Dinesh D'Souza [released the trailer](#) for his upcoming movie ["2000 Mules."](#)

[True the Vote](#) has been working with Dinesh D'Souza to create this bombshell movie that uses footage and tracking data they obtained of ballot boxes in key states across America used to steal the election in 2020.

[100 Percent Fed Up](#) added this on the investigation in January —

Using commercially available geo-tracking cell phone data, True the Vote was able to take footage from drop boxes across America in key states like Georgia and others to track over 2,000 'mules' wearing gloves and disguises to stuff ballot boxes.

TRENDING: [EXCLUSIVE: DEMOCRATS IMPLICATED — Georgia Ballot Traffickers Were Using Democrat Officials' Offices as Stopping Points During Ballot Drop Runs](#)

In early January The Gateway Pundit reported to our readers that our organization agreed to hand over exclusive video from a major battleground state to [True the Vote](#) for their ballot trafficking investigation in the 2020 election.

The Gateway Pundit shared never before seen ballot dropbox surveillance video, 24 Terabytes of footage, with the election integrity group in their ongoing investigation.

Special thanks to Patty McMurray at [100 Percent Fed Up](#) for her assistance in this agreement.

The investigation is ongoing. The movie is set for a spring release.

That brings us to today.

On Sunday [Turning Point USA](#) Founder and President Charlie Kirk was in St. Louis and joined Joe Hoft from The Gateway Pundit and Real Talk 93.3 to discuss the 2020 election and related topics.

During the interview, Charlie Kirk says he spent time with Dinesh D'Souza the producer of "2000 Mules." Charlie then dropped this bomb.

Charlie Kirk: You have the surveillance video that Dinesh is using in his upcoming movie where people are coming out of the car with piles of ballots. Illegal. You cannot do that in Georgia. Stuffing them into ballot boxes funded by Mark Zuckerberg... Coming night after night after night, the same guys. They're wearing latex gloves on camera, after they put the ballots in the drop boxes they take off the latex gloves because they don't want fingerprints on the ballots and they take pictures of every ballot. And you'll see this video footage. I had a six-hour meeting with Dinesh D'Souza and I saw all the evidence for myself. I was really

skeptical at first and we dove into it. And I was blown away at how the sophisticated technology they used to be able to track these people using cellphone technology because your cellphone is letting off a ping every 3 to 5 seconds. You can go buy those pings off of certain geographic areas... **They saw that some of these mules would visit these drop boxes every night. And then go to Stacey Abrams' headquarters and then go back to the drop boxes.**

** Joe Hoft's [video interview with Charlie Kirk is here](#).

This is a huge development that implicates the Democrat Party directly and Stacey Abrams in particular in the ballot trafficking operations in the state of Georgia.

We later confirmed from a second source that a second Democrat office in the state of Georgia was also used as a stop for the dozens of ballot traffickers in the state.

Later this afternoon we reached out to [True the Vote](#) founder and president **Catherine Engelbrecht** who is spearheading this investigation. Catherine told us,

“We cannot confirm anything about organization names right now by advice of counsel. But we can confirm that two of the addresses were among a data set of those we reviewed.”

Catherine also said there are a number of investigations taking place right now.

The pieces are starting to fall into place.

God willing, the truth will be exposed to the American people.

God willing.
