

**EXCLUSIVE:** Hunter's search history reveals his obsession with porn and sex fantasies including '18yrs old,' 'lonely widow' and 'MILF crack cocaine porn,' he uploaded his OWN amateur videos and texted Pornhub link to phone listed in his contacts as 'Dad'

## Description

USA: [Hunter Biden](#)'s search history reveals an obsession with porn including incest fantasies, '18yrs old', 'lonely widow' porn, 'MILF crack cocaine porn', as well as instructions on how to hack a lover's cell phone and repeated [google](#) searches of himself.

The list of searches covers just six days in March 2019 before he broke his laptop, took it to be repaired a [Delaware](#) shop, and then abandoned it. But it is packed full of revealing and disturbing websites.

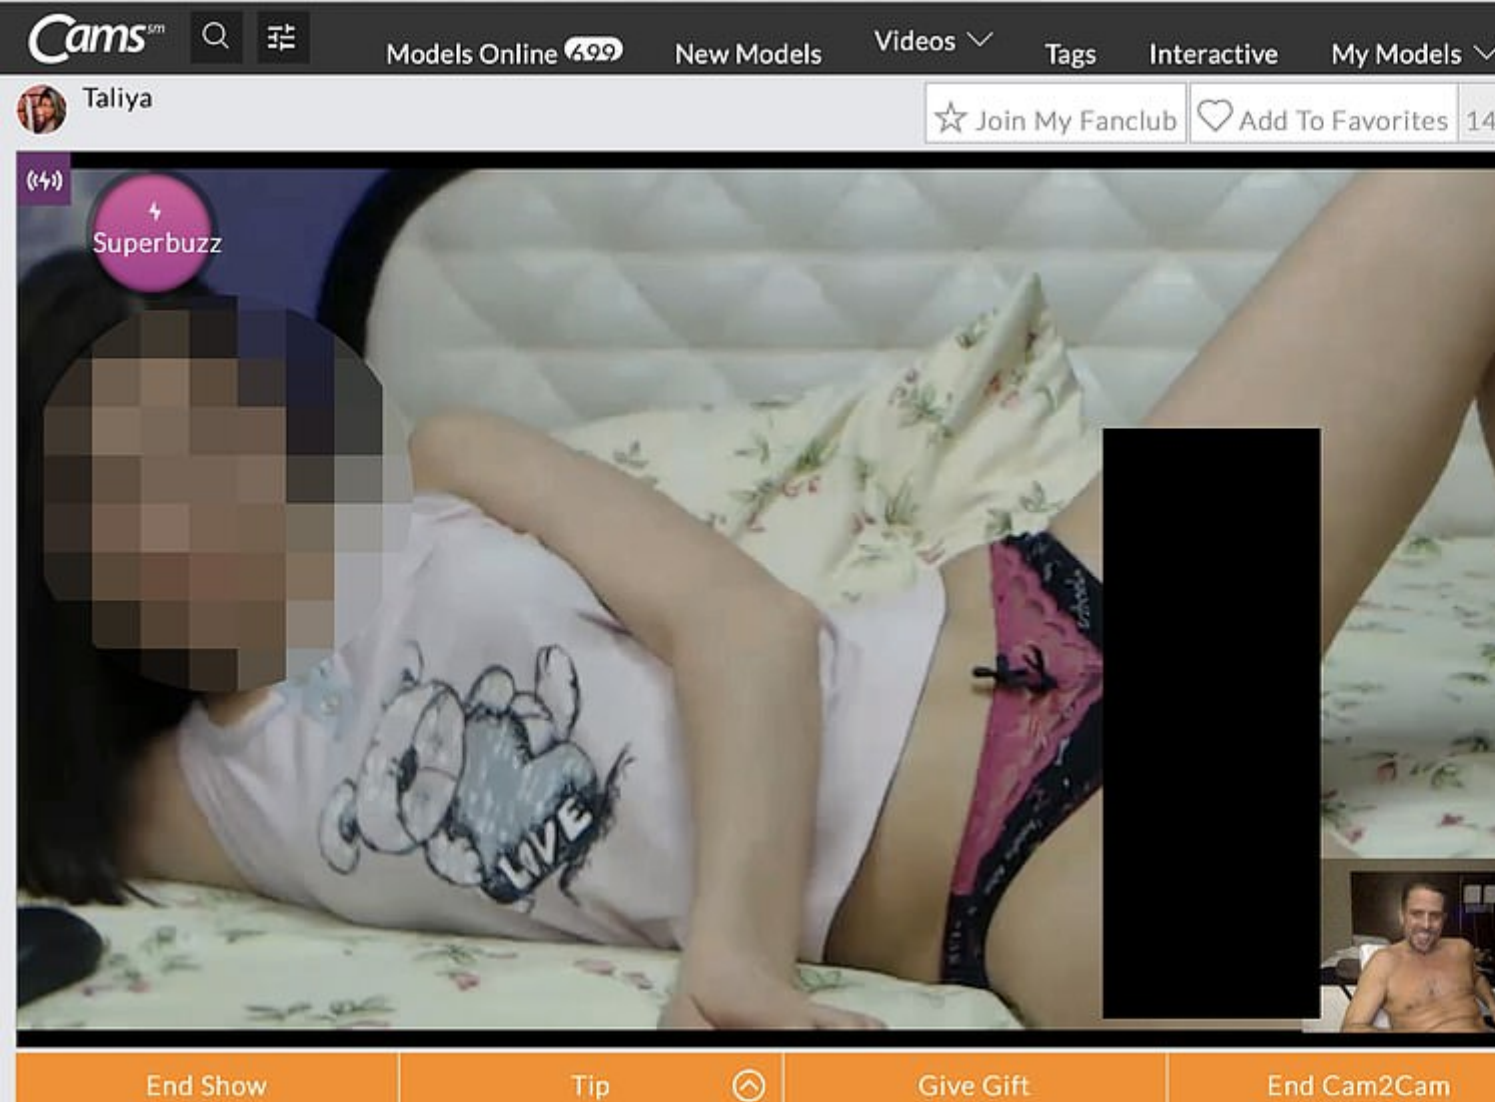

Dozens of videos on the laptop also reveal Hunter's penchant for filming himself having sex with prostitutes and posting the home movies on his own Pornhub account under the username 'RHEast'.

The president's son took care not to show his face in his uploaded videos.

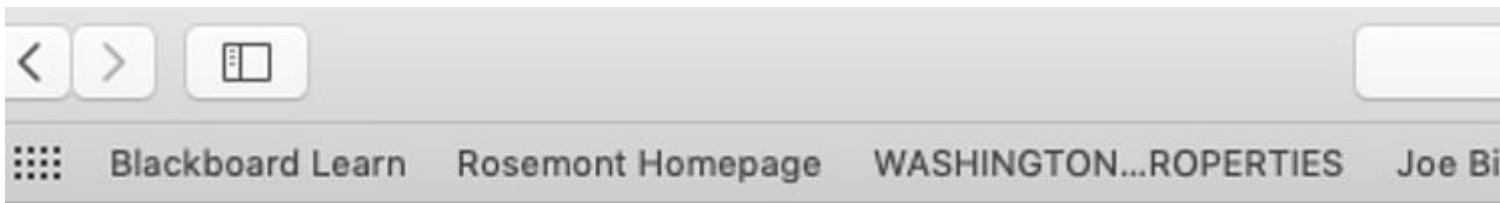

Hunter Biden’s abandoned laptop has laid bare his secret porn addiction as well as his penchant for making his own amateur sex videos. The internet search list shows Hunter was frequently visiting porn sites and making other Google searches shortly before he broke his laptop and took it to be repaired a Delaware shop where he abandoned it

The president’s son was a frequent visitor of porn sites including adult cam site Glasscams.com, where he often made screen recordings of himself (bottom right corner) interacting live with women

*His browsing history from March 12, 2019 shows he spent time on Pornhub and also searched for 'girl*

*nude' on Google*

Of the 281 websites captured in his browsing history over six days, 98 were pornographic.

Shockingly, Hunter texted a link to a Pornhub page to a phone number he had saved in his contacts book as 'Dad' on October 22, 2018.

However, other texts show he and Joe Biden used each other's phone numbers at various times, so it is unclear whether the president was using that number at the time.

Hunter, who had a controversial relationship with his brother's widow, also repeatedly searched Pornhub for videos involving widows, including 'Homemade widow porn', 'Homemade lonely widow porn' and 'Lonely widow porn'.

The Biden son, who was 49 at the time, searched for porn videos involving teenagers according to his browsing history.

Videos he visited included '18 Yrs old and really Good at Riding D\*\*\*', 'TEENFIDELITY Country Girl Raylin Ann C\*\*\*\*pie' and 'Lucky Foreign Student Stripped & F\*\*\*ed by Horny Teen Pals'.

*Texts, photos and video footage on the laptop show the president's son ordering prostitutes and filming porn videos with them which he then posted online on his Pornhub account*

*Hunter – who had a controversial relationship with his late brother’s wife after his death – appeared to have a taste for incest fantasies as well as ‘18yrs old’, ‘lonely widow’ porn, ‘MILF crack cocaine porn’*

*Above is a grab from a screen recording he took of his live web cam interactions with cam girls*

He also searched for 'Washington DC Milf Crack Cocaine' seven times throughout the week.

Among his porn searches is a record of Hunter visiting a 2009 New York Post article about his sister Ashley Biden and her history of partying, arrests, and alleged cannabis use while she was a college student in New Orleans.

He also used search engine DuckDuckGo, a more discreet alternative to Google, to search for himself several times between March 12 and March 17, 2019.

Texts and videos on the laptop show the president's son ordering prostitutes to his hotel rooms in California and Connecticut, discussing buying and using crack with them, and filming porn videos with them which he then posted online on his Pornhub account.

The profile picture for his account is a photo of two women sitting on him on a bed in a messy room, with a small white dog also perched on the bed in the background.

The videos Hunter filmed on his laptop include one where a woman uses her feet during sex.

In another video, Hunter puts his hand around a woman's throat while having sex.

*Photos found on the device included selfies and candid shots with his father, President Joe Biden*

Screenshots from another explicit video show Hunter left a woman tied up on his bed with a red stocking over her head while he went out to get pastries.

He returned, and took a screenshot as he munched on a sandwich and laid a chocolate croissant out

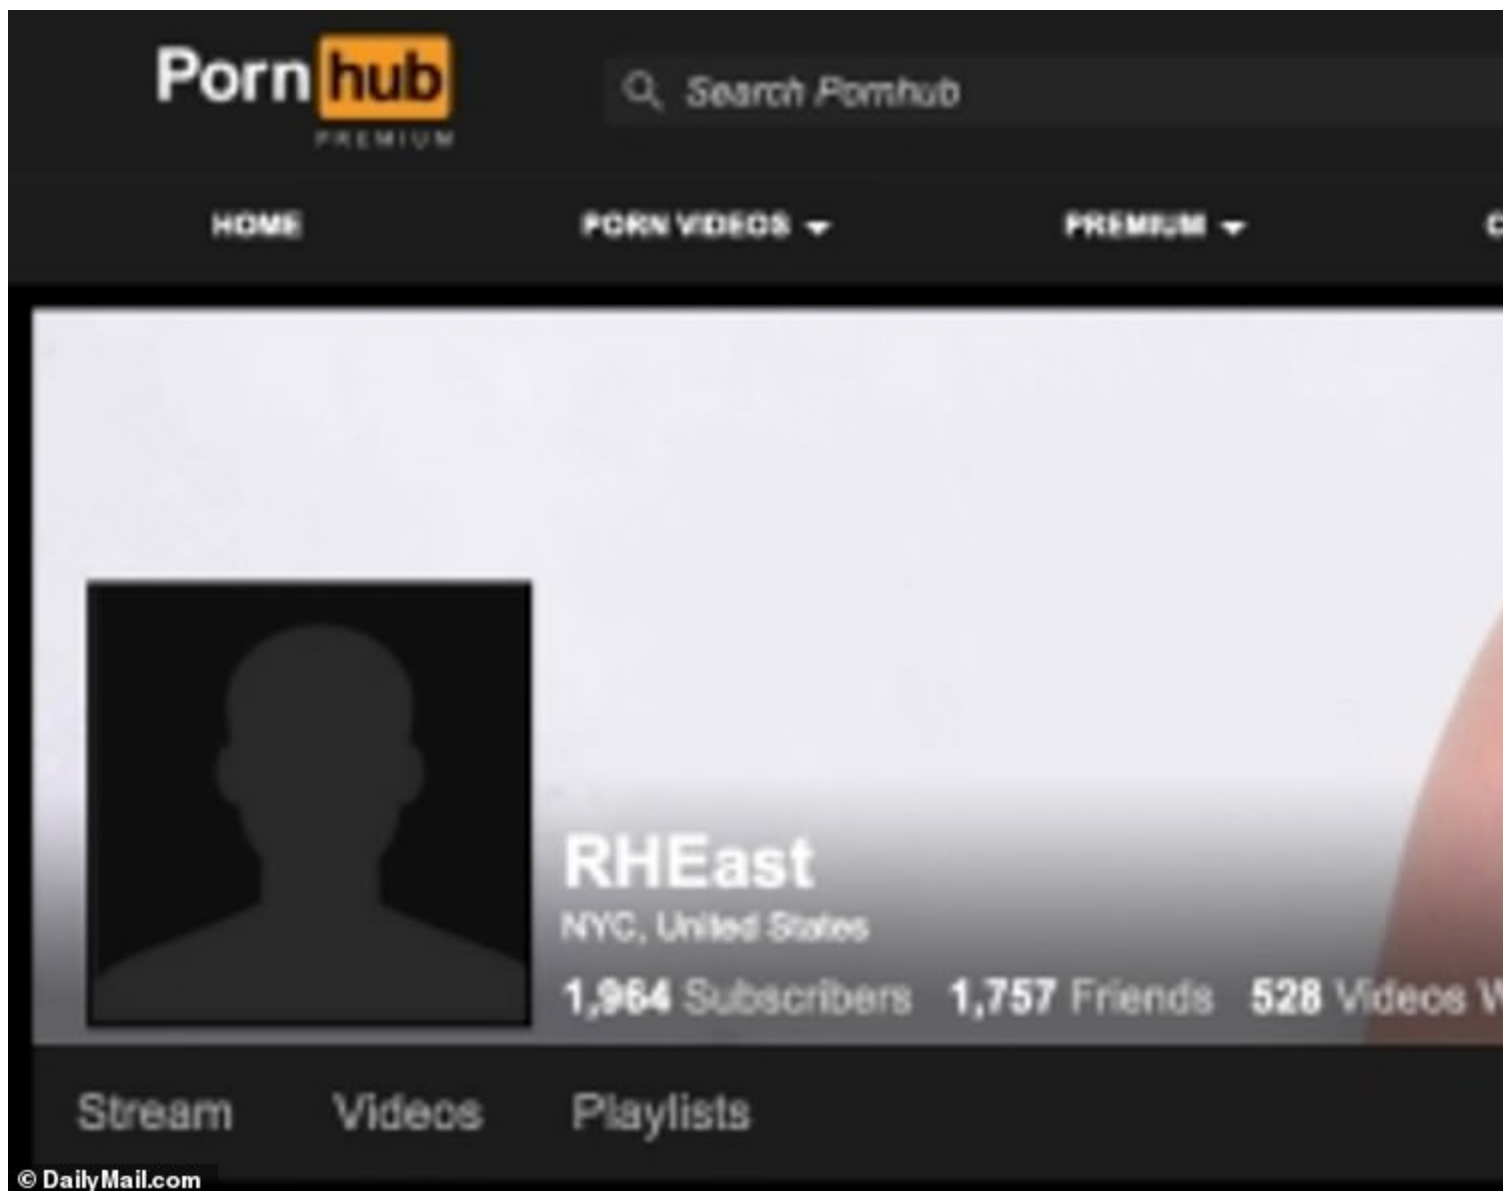

in front of the hooded and trussed woman.

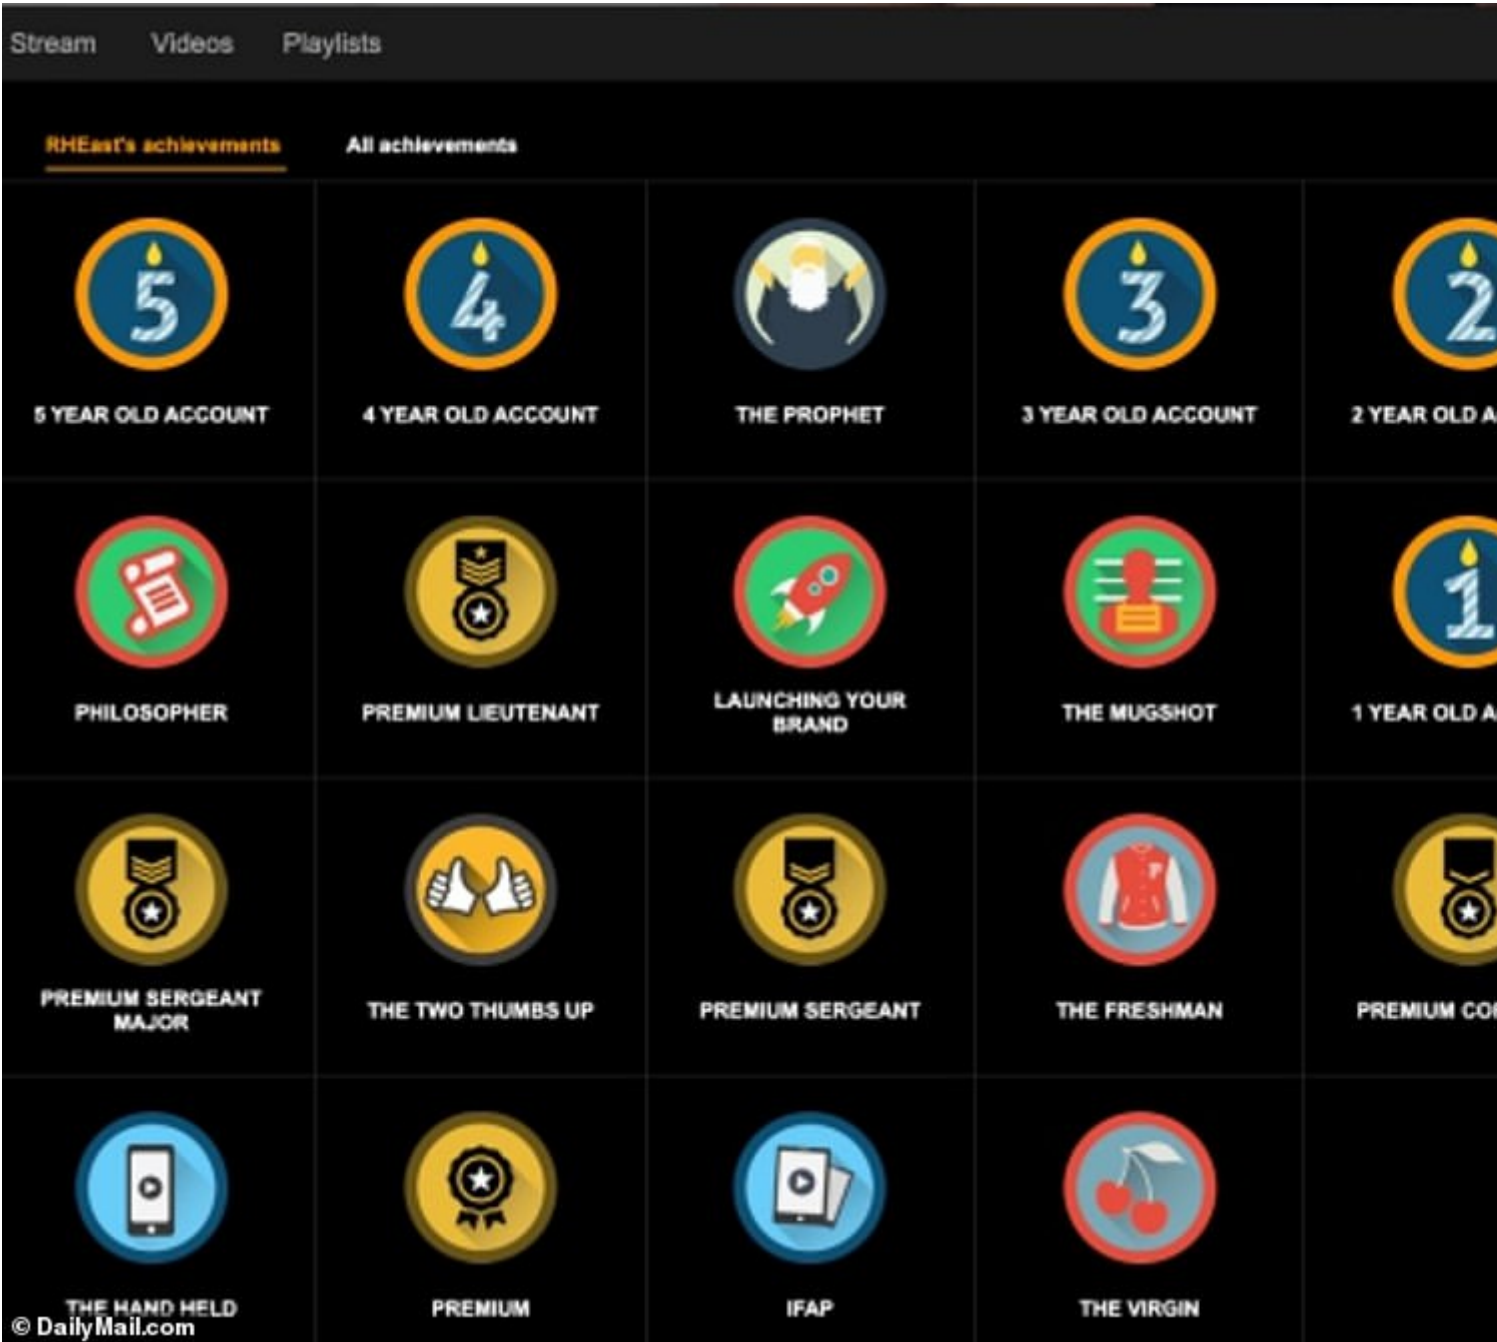

The videos are mainly filmed using his laptop's webcam, though he also filmed himself using a phone on a selfie stick, and in a threesome with two women, one of them uses an iPad to film a hard-to-reach angle.

In several of the raw videos on his computer, he finishes with the woman and then leaves the camera running as he hunches in front the screen, poring over the footage.

In one embarrassing post-coital moment the disheveled Hunter grimaces, leans to the left and farts audibly.

Hunter had a paid-for, premium account on the website Pornhub where he earned several badges for his prolific use of the site and even uploaded his own explicit video.

*Hunter's laptop is brimming with files that give a shocking glimpse into his debauched life during which he engaged in drug use and prostitution. This photo of him grabbing a woman's hair was recovered from his laptop*

A video on his laptop in which he recorded his screen shows him logging into his Pornhub account and searching for videos.

At one point in the video Hunter navigates to his own profile, under the pseudonym RHEast.

The page says he has watched 3,631 videos, had 24 subscribers and 66 'friends' on the site.

He listed his profile name as 'Harper', describing himself as a 45-year-old single, heterosexual male living in Paris.

An account with the username RHEast currently exists on the Pornhub premium site, with details that match the account and badges saying it has existed for at least five years.

The RHEast page says it was last logged into three years ago. The previous profile picture, of two women sitting on Hunter on a bed with a small dog perched on the end, has been removed and all that remains are two playlists of porn videos.

Other Pornhub users have commented on the videos, apparently aware the account was once used by Hunter.

DailyMail.com last year commissioned top cyber forensics experts Maryman & Associates to analyze its data and to confirm the laptop's contents were real

Hunter also seemed to repeatedly Google himself in between browsing

Hunter Biden's abandoned laptop has laid bare his secret porn addiction as well as his penchant for making his own amateur sex videos

Natasha Nice? Abella Danger?' user GoonMcCumd commented, referring to the porn stars in the playlist's videos. 'Pretty good taste, Hunter. Now if only you didn't have that taste for crack and meth...'

Another user named 'ChinaJoeBiden' wrote 'good morning. It's a beautiful day to make money in China!' in an apparent reference to Hunter's controversial Chinese business dealings reportedly under investigation by the FBI.

On top of his pornography and prostitute interests, the president's son was a regular user of sex cam sites.

His search history includes five visits to adult cam site Glasscams.com, and screen recordings he made on his computer show him naked, interacting live with the women on the site.

Hunter's internet browsing also focused on hacking and spying on phones to catch infidelity.

He looked up a private investigator's website and searched for questions on crowdsourcing Q&A site Quora including 'who may hack a cell phone?', 'Hire A Professional Hacker', 'Catch a Cheater', 'How do I track a cheating husband?', 'Have you ever hired someone to hack a cheating spouses cell phone?', and 'Can my cheating girlfriend cell phone be hacked?'

Hunter searched for questions and answers on the site about 'spoofing' cell phone numbers, which involves creating a fake copy of a number to intercept calls and texts, and looked up articles on an Indian hacker called Kashmiri Cheetah.

*Hunter infamously dated his late brother Beau's (left) widow, Hallie Biden, after his passing in 2015. Files on his laptop suggest that he may have been spying on her*

Files on Hunter's laptop also show that he may have been spying on his lover Hallie, and accused her of infidelity with a friend of Hunter's and the Biden family.

He kept spreadsheets full of text messages which appear to be from Hallie's phone, as well as

annotated call logs from her phone in his AT&T bills, on his computer.

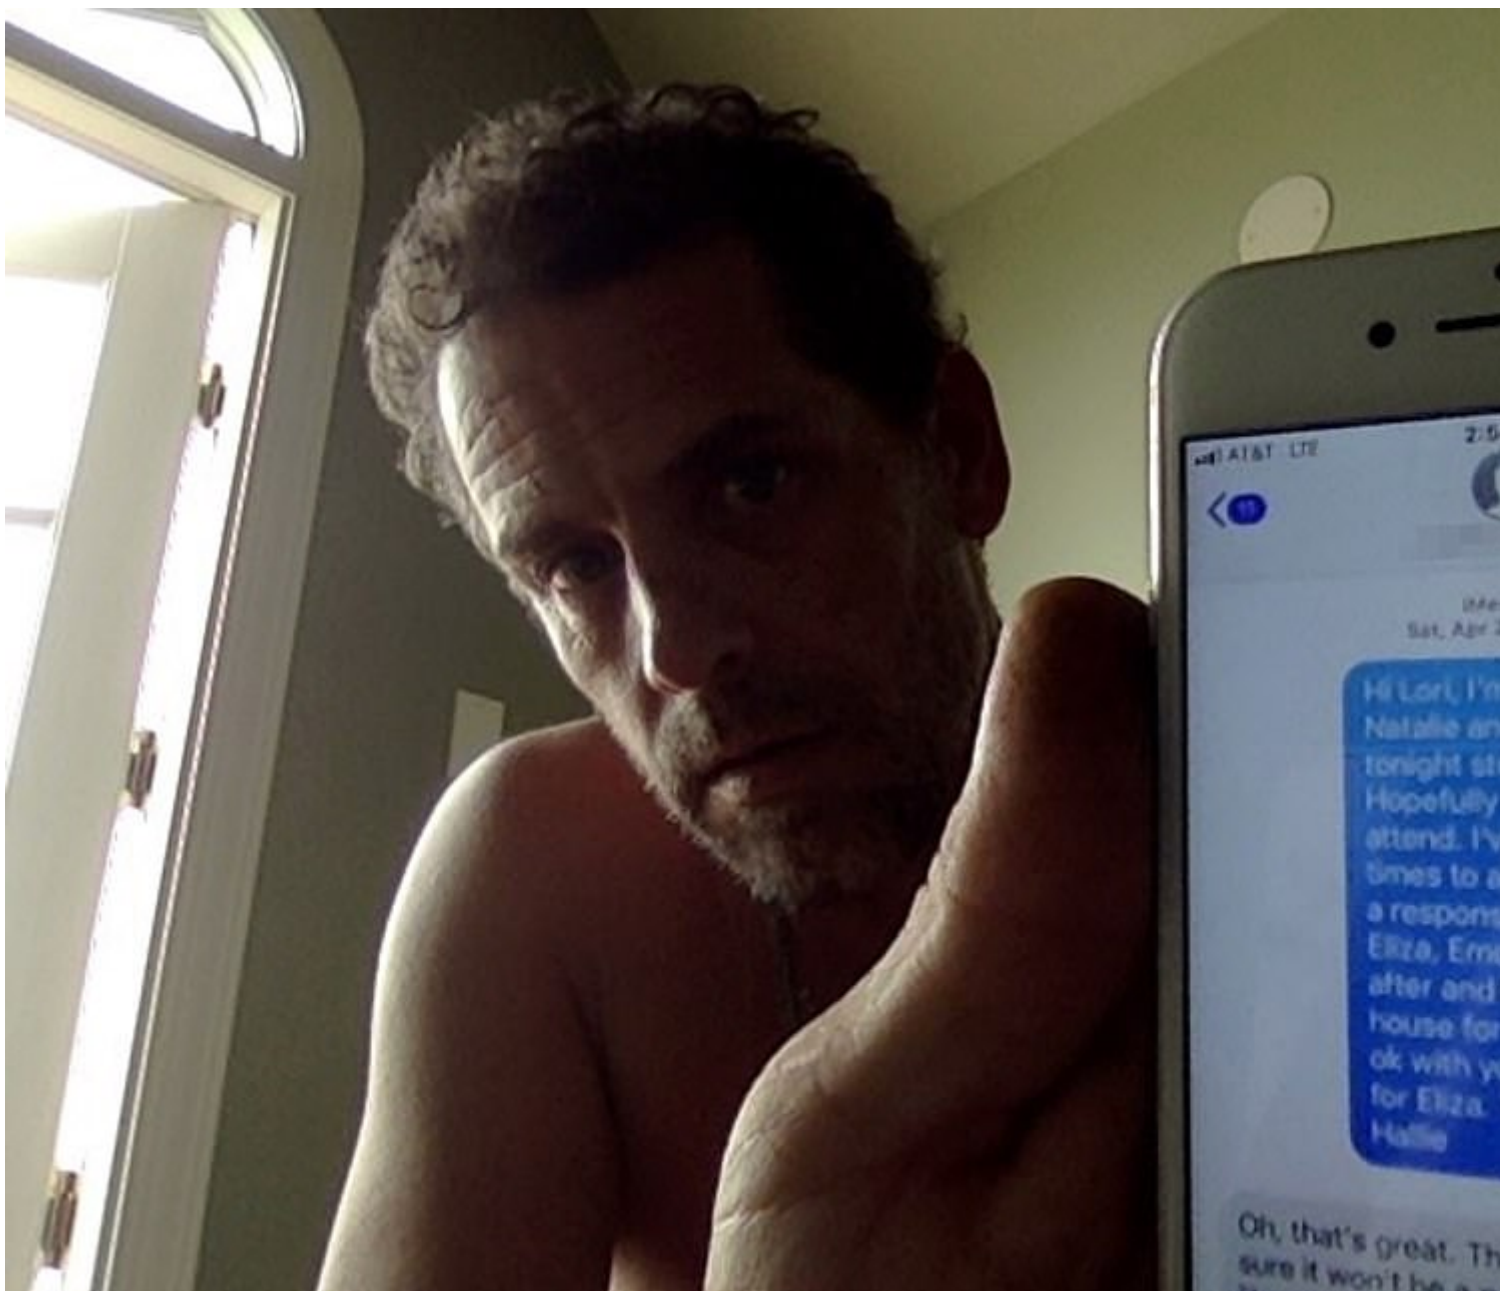

In one testy exchange on February 6, 2017, Hunter texted Hallie and a family friend what appears to be a transcript of private texts between the man and Hallie.

'If you can possibly explain this as something innocent and – [the man] is just such a food friend then I will apologize,' Hunter wrote to them.

Hunter wrote to the family friend '...if I sent this to your girlfriend when you were away (I went to CA for Rehab) AND 87 other texts just in march would you be OK with that?'

In the text transcript, [the man] texts Hallie on March 3, 2016: 'Come pls. Need you here. One drink and I'll fill you in when you get here. For real. I need you.'

Hallie replies: 'Feel free to stay here I'm in bed' and [the friend] responds 'I probably will'.

*A jealous Hunter appears to have been spying on his lover and brother's widow, Hallie Biden. He took a selfie with a phone showing her private texts with a friend, suggesting he went through her messages*

*Hunter apparently kept spreadsheets full of text messages which appear to be from Hallie's phone on his computer. His sister-in-law and one-time girlfriend is seen planting a kiss on his cheek in a selfie*

After Hunter sent them the transcript, [the friend] responded angrily denying any romantic involvement with Hallie.

'I've blocked all of you on my phone. The idea that I lied to you about Hallie is so f\*\*\*ing laughable,' he wrote.

'I will never talk to Hallie ever again until she tells you I never gave her any idea that I was interested in her. It's f\*\*\*ing so pathetic.

'Two months after Beau died and I was trying to make time w her for real....even though Beau and I were not talking and are relationship ended the way it did do you honestly f\*\*\*ing think I would try to f\*\*\*ing make time with Hallie two months after he died. F\*\*\*ing.'
