

## EXPOSED: Biden Paid \$1 Billion to MSM To Push COVID 10 Vaccine Propaganda

### Description

Like it's surprising?!

Be honest and tell me, is there anyone out there that actually believes that the mainstream media weren't paid off to spread COVID nonsense?

Not to mention numerous other "side stories" related to the C-10 propaganda...

According to freshly released court documents, Biden's administration has funnelled a whopping sum of \$1 billion to MSM's networks in order to promote the deadly COVID-19 propaganda.

We can't say it didn't work, but it wasn't a 100% success, since many doubts and internationally leaked whistleblowing stories and documents also came along.

The Biden administration funnelled a whopping one billion dollars to mainstream media news networks to promote vaccine propaganda to millions of Americans, new court documents reveal.

"In response to a FOIA request, Biden's HHS revealed that it purchased advertising from major news networks including ABC, CBS, and NBC, as well as cable TV news stations Fox News, CNN, and MSNBC, legacy media publications including the New York Post, the Los Angeles Times, and the Washington Post, digital media companies like BuzzFeed News and Newsmax, and hundreds of local newspapers and TV stations," The Blaze reported.

"Hundreds of news organizations were paid by the federal government to advertise for the vaccines as part of a "comprehensive media campaign," according to documents TheBlaze obtained from the Department of Health and Human Services. The Biden administration purchased ads on TV, radio, in print, and on social media to build vaccine confidence, timing this effort with the increasing availability of the vaccines. The government also relied on earned media featuring "influencers" from "communities hit hard by COVID-19" and "experts" like White House chief medical adviser Dr. Anthony Fauci and other academics to be interviewed and promote vaccination in the news."

The best way to avoid getting sick is by boosting your immune system. Q Shield Immunity Booster+ helps you stay healthy and minimizes your risk of getting sick. Q Shield Immunity Booster+ is made with natural ingredients that act directly on the immune system to make this more effective.

“Congress appropriated \$1 billion in fiscal year 2021 for the secretary of health to spend on activities to “strengthen vaccine confidence in the United States.” Federal law authorizes HHS to act through the U.S. Centers for Disease Control and Prevention and other agencies to award contracts to public and private entities to “carry out a national, evidence-based campaign to increase awareness and knowledge of the safety and effectiveness of vaccines for the prevention and control of diseases, combat misinformation about vaccines, and disseminate scientific and evidence-based vaccine-related information, with the goal of increasing rates of vaccination across all ages ... to reduce and eliminate vaccine-preventable diseases.”

HHS ads posted to YouTube have been viewed millions of times and commercials featuring celebrities like singer Sir Elton John and actor Sir Michael Caine have been the subject of news coverage, such as this feature from NBC News:

“Fear-based vaccine ads” from HHS featuring “survivor” stories from coronavirus patients who were hospitalized in intensive care units were covered by CNN and discussed on ABC’s “The View” when they were unveiled last October.

“Advertisers pay for space to share their messages, as was the case here, and those ads are clearly labelled as such,” explained Shani George, vice president of communications for the Washington Post, in a statement. “The newsroom is completely independent of the advertising department,” she said.

A spokeswoman for the Los Angeles Times gave a similar statement, emphasizing that the “newsroom operates independently from advertising.”
