

## FORCED VACCINATION IN ARGENTINA (VIDEO 1 min)

### Description

Dr. David Martin talks about the true origins and nature behind “Covid-19” and the “New Normal”.

There is nothing new nor novel about the Covid-19 virus. It's not natural. It was manufactured.

How do we know? Because there are patents on different elements of it going back 20 years, and you cannot patent something that is naturally occurring.

How many patents? At least 73.

The vaccine treatment was patented prior to the 2019/2020 outbreak.

It's all about money.
