

From LAB to LUNGS: The real COVID timeline in a nutshell

Description

Dirty “vaccines” have never been dirtier than the ones created for Covid-19. SARS-CoV-2 was created in a laboratory and released to start a pandemic, and this is no conspiracy theory (anymore), and actually never was one. Take a look at the history of this plandemic, and you will see the forest for the trees. From lab to lungs, the scamdemic was planned so that big governments and big pharma could take control of the populace, kill off billions of them, control the rest, and convince everyone that the clot shot vaccines were the saving grace of it all, even though they are the weapons of mass destruction. Here’s where it all began, and how we got to where we are today.

December, 2004: Liver damage from SARS vaccine documented. Lab animals (ferrets) vaccinated with rMVA-S and then exposed to SARS-CoV suffered liver damage from elevated levels of a specific enzyme, as discovered by researchers in Canada 16 years before the Wuhan virus was released from labs in China. Canadian researchers were developing a vaccine for SARS and started testing it on ferrets in laboratories, as reported in the *Journal of Virology*, when they found hepatitis in the ferrets and began urging extreme caution for other investigators working on SARS vaccines.

September, 2007: *Virus Mania* book published long before the SARS Coronavirus scamdemic even began, explaining in depth how the medical industry invents epidemics and pandemics so they can bankroll billions of dollars in profits at patients’ expense. The book is very thorough and fact based, with over 800 footnotes and scientific, evidence-based research to back up all the statements.

September, 2010: Bill Gates announces he can reduce the world’s population by several billion people using new vaccines and abortions.

November, 2015: SARS study by UNC scientists literally warns the world about a bat virus that “could become a source of future human outbreaks.”

January, 2018: Fauci steers massive funding to Wuhan lab’s “gain of function” coronavirus research so a bat disease can spread to humans (and it works).

December, 2020: FDA fraudulently issues “[Emergency Use Authorization](#)” (EUA) for dangerous and untested Covid-19 “vaccines” that are not really vaccines at all, but rather DNA-altering gene-mutation

injections that spread millions of spike prions throughout the vascular system, cleansing organs, heart and brain.

August, 2021: Fake president Biden lies and tells America the Fauci Flu jabs are “[safe and effective](#)” even though they are dangerous and ineffective, as Pfizer and Moderna clinical trials are falsified.

November, 2022: Dr. Robert Malone, one of the key creators of mRNA technology, blows the whistle on how horrific it can be for human health, and lets the world know that the clot shots can cripple the human immune system AIDS style.

February, 2023: Whistleblower Sasha Latypova reveals DoD origins of COVID plandemic and mRNA “vaccine” bioweapon. She reveals Big Pharma and the CDC’s immediate censorship of remedies for Covid-19 that really worked, including ivermectin and hydroxychloroquine. Doctors got their licenses suspended and they were persecuted for curing people using natural remedies. Fake studies were done to suppress cures and promote deadly mRNA clot shot injections. The US government is at the top of this, running the whole scamdemic apocalypse in America.

Bill Gates says the quiet part out loud about depopulating the planet by using abortions, pharmaceuticals and “new vaccines”

Dial it back. The year was 2010, and Bill Gates said the quiet part out loud, at a TED conference, explaining how the world population could be reduced by several billion people if we ... “do a really great job on *new vaccines*, healthcare, and reproductive services...” and by healthcare and reproductive services, he meant abortions, and by vaccines he meant instead of just causing extreme allergies, asthma, and autism, that NEW vaccines literally *exterminate* people, as the Covid clot shots do now by sending millions of spike proteins into vital organs, while clogging up the vascular system, causing turbo cancer and heart attacks. What else could he have meant, besides maybe more deadly prescription drugs? Let that sink in for a moment.

Next, from 2018 to 2019, according to National Institutes of Health (NIH), Fauci navigates massive funding, including grants, for research at bioweapons laboratories (CCP-based) as they create a novel virus using “gain of function” where a virus that never hopped from animals to people suddenly can. SARS CoV-2 was created in a laboratory as the Wuhan lab, in cahoots with the Chinese Military, tested whether or not “spike proteins from naturally occurring bat coronaviruses circulating in China were capable of binding to the human ACE2 receptor in a mouse model.” And just like that, a pandemic was born.

Then came the Wuhan *Hunan* wet market bat-eater conspiracy theory about the origins of coronavirus, saying somebody in China ate an infected bat and now the whole world needs to go on lockdown, get vaccinated, and wear masks eternally to stop the entire world's population from being wiped off the face of the Earth. That's right when all the cruise ships from China, full of infected people, started arriving and de-boarding on the west coast of the United States of America. Let the vaccine-induced mass-depopulation "games" begin.
