

## Fully Jabbed NFL Executive Drops Dead ‘Suddenly and Unexpectedly’

### Description

**USA: Fully Jabbed NFL executive Jason Jenkins dropped dead ‘suddenly and unexpectedly’ on Saturday, according to reports.**

Jenkins was the Dolphins’ senior vice president of communications and community affairs. He was 47.

According to the *NY Post*, the cause of his death is not known. The Palm Beach Post reported Jenkins died after “a medical emergency.”

TheLibertyDaily.com reports: As with all corporate media stories on topics dealing with UCOD cases, they skim past the mystery of the death, never mention Covid or the vaccines, and proceed to fill the rest of the stories with reactions from friends and a short life story.

Meanwhile, studies and statistics continue to emerge pointing to a definite correlating and probable causal relationship with the rollout of the Covid jabs. For example, new data out of Israel shows total deaths in 2021 were higher with the jabs being rolled out than at the peak of Covid hysteria in 2020. More importantly, with Covid practically out of the picture in 2022, deaths are even higher than in 2021.

Israel ?? official total mortality numbers released ?

2020 was the year of “once-in-a-century pandemic” with no vaccines available.  
But total mortality in 2021 and 2022 is dramatically higher.

I’m neither a doctor nor a mathematician, but I can read basic facts and draw obvious conclusions. It’s

the jabs. Short- and long-term adverse reactions are killing people.

This is why there's such a sharp rise in UCOD cases.

Big Tech is getting a little less restrictive about Covid injection truth. A little. It's important we share this information with as many as possible to prevent further "vaccinations" and "boosters" from reaching arms across the globe.
