

Gary D. Barnett — Covid Relaxation is a Trick

Description

USA: ‘They’ (the controlling state organized crime cartels) are coming after all of us not ‘vaccinated,’ and by giving some temporary freedom to the masses of compliant slaves, and then taking it away, they will breed much more hatred for all those that refuse to bow to the state.”

“After this premeditated short summer calm, planned chaos will once again rear its ugly head.”

Is This Calm Before the Storm Meant To Create a War Against Dissenters and the ‘Unvaccinated’? Absolutely!

By Gary D. Barnett – (abridged by henrymakow.com)

While Montana has not been nearly as absurd as California, Oregon, New York, Colorado, and others, certain cities have remained since the beginning of this ‘pandemic’ farce, locked down and controlled by the local political scum in such a manner as to be reminiscent of totalitarian regimes.

The city of Bozeman has been one of those places, at least until just very recently. It has been for a year or more a place of extreme shutdowns, draconian rules and enforcement, horrible restrictions, and full masking everywhere. That just changed nearly overnight...

When I arrived in Bozeman recently, I could barely find anyone that was wearing a mask, as the streets were full of people; shoppers, revellers, groups partying, and moving about as though no ‘virus’ scam had ever occurred.

Crowds were congregated in large groups shoulder to shoulder; touching, talking, hugging, and seemingly acting normal, but was it normal?
