[Infowars.com](#) reports: Daskal also worked as senior counterterrorism counsel for anti-free speech organization Human Rights Watch, which received over \$32 million from Soros between 2000 and 2014.

Human Rights Watch recently condemned Tesla CEO Elon Musk's acquisition of Twitter over his aim to make the social media platform a haven for free speech.

Finally, Daskal was also [the founding editor](#) of the Soros-funded *Just Security* blog, which the OSF gave \$675,000 to between 2017 and 2019.

Daskal's involvement in the Disinformation Governance Board was revealed by DHS Secretary Alejandro Mayorkas during a congressional hearing last week.

Soros' OSF has been a key player in pushing for censorship on social media platforms under the guise of policing "hate speech."

Daskal will be working in tandem with Trump-Russia collusion hoaxer and anti-free speech buffoon Nina Jankowicz, who falsely [claimed](#) the authenticated Hunter Biden laptop story was

“Russian disinformation.”

Jankowicz, the Disinformation Board chief, even recently asserted that the Senate [report](#) outlining Hunter Biden’s questionable involvement with Ukraine energy company Burisma Holdings was “disinformation.”

Nina Jankowicz was asked about a Senate committee report on the Biden family’s involvement in Ukraine.

She accused the Senate committee of spreading disinformation. Seems like some Senators should want to ask her about this. [pic.twitter.com/Rtb0OboKiC](https://pic.twitter.com/Rtb0OboKiC)

Though DHS chief Mayorkas insisted that the Disinformation Board won’t have “operational authority” to police free speech, Sen. Rand Paul (R-Ky.) last week noted that the federal government can’t even agree on what defines disinformation.

“You know who the greatest propagator of disinformation in the history of the world is? The U.S. government,” Paul [told Mayorkas](#) during a congressional hearing. “Are you familiar with [former Secretary of Defense Robert] McNamara? The Pentagon Papers? Are you familiar with George W. Bush and the weapons of mass destruction? Are you familiar with Iran-Contra? Think of all the debates and disputes we’ve had over the last 50 years in our country. We worked them out by debating them.”

Meanwhile, government bureaucrats like FDA chief Dr. Robert Califf absurdly claim with no evidence that disinformation is the “leading cause of death” in the United States.

Will the Disinformation Board set him straight or just continue to let this blatantly false assertion disseminate?
