

GOP Rep: 'Cabal of Unelected Elitists, Including Obama, Is In Control Of America'

Description

USA: Republican Congressman Ralph Norman declared Wednesday that everyone knows Joe Biden isn't in charge of anything, and that in reality there is a secretive cabal of elitists that are running America.

Appearing on *Real America's Voice*, Norman was asked about the possibility of impeaching Biden over wide open borders.

"[We'll] subpoena as many people as we can," the South Carolina Rep. said, adding "We're gonna hopefully have consequences starting with [Homeland Security Secretary Alejandro] Mayorkas, [Christopher] Wray with the FBI. I mean, a whole host of things."

Norman further urged, "look who is behind [Biden], Kamala Harris... she may speak a little bit better, but look at what you get with her... it could be even worse."

"The whole administration is a rogue administration and I guess we all know Joe Biden is not running this country," Norman continued.

He further asserted "there is a cabal of unelected elitists who are running this country," adding "Probably Barack Obama is involved. Probably Eric Holder... but who knows? We know it's not Biden."

Watch:

As we highlighted earlier this week, Biden's clear mental decline is harming America's reputation on the world stage, with the likes of Saudi Crown Prince Mohammed bin Salman finding amusement in mocking him.

On the left, meanwhile, Hillary Clinton and others are warning that "Right-wing extremists" are already plotting to steal the next presidential election.
