

Guess Who Threatened to Take the Russian Nord Stream Pipelines Offline Before They Were Sabotaged This Week?

Description

On Monday Russia's Nord Stream 2 Pipeline from Russia to Germany **lost all pressure** from 300 to 7 bars.

The cause is unknown.

German citizens are facing a very cold winter ahead.

Now this...

Via [Disclose TV](#) – Following the pressure drop in Nord Stream 2, a pressure drop has now also been recorded in both lines of Nord Stream 1, the operator says.

German officials are suggesting the pressure drops may have been a targeted attack.

So guess who previously threatened to take the Nord Stream Pipelines offline before they were sabotaged on Monday?

Incoming fact check;

There is no evidence that the Biden regime shut down Nordstream 2.
