

Hammer Time!! Paul Pelosi Assault Distracts from DHS and Biden (VIDEO 2 min)

Description

A loaded Monday transmission as big breaking news less than 10 days left until the election has major implications on the future for America. The big story getting the attention is the attack on Paul Pelosi, but the bigger story not getting the attention is how leaked documents and communication between big tech companies and the Biden administration show how censorship was derived from the government for and by Democrats, not by a private company as was previously argued. Joe Hoft from the Gateway Pundit joins to discuss the latest details and questions that remain in the Paul Pelosi story. Alex Rosen gets assaulted at multiple Beto rallies over the weekend. Why? Because he asked Beto to disavow trans kids surgeries. He recalls his experience live in the studio after multiple attacks against him.
