

## Heart Failure Among Vaxxed US Military Personnel Up 937%

### Description

**US : In September 2021, a few months into the most massive mandated vaccination campaign in the history of the “democratic” West, a lieutenant colonel of the US Air Force and a doctor with experience of bacteriological weapons, raised the alarm about serious heart problems in adverse reactions to the mRNA jab.**

Theresa Long became a whistleblower in a long and detailed affidavit (sworn report) which Gospa News reported a few days after.

It was revealed the doctor prohibited all vaccinated pilots of the 1st Aviation Brigade at the Fort Rucker base (NOW Fort Novosel in Alabama) from flying.

Declassified Department of Defense data now confirms that as a result, Dr Long was forced to leave the army and is now among the 200 active or retired soldiers who, like her have taken [legal action](#) against their superiors for the imposition of the mandatory vaccination.

[Yesterday](#) I provided examples (link below) of how the establishment, which can only lie, is trying to narrative manage the no longer deniable evidence that the Covid vax is deadly and harmful to health.

One of the narrative management tricks is to admit to the adverse effects of the “vaccine” but to sweep them under the rug as “rare.”

If the dangers of the “vaccine” were rare, Big Pharma would not have its shills at work trying to discredit or dismantle the vaccine adverse events reporting system.

**That the deaths and health injuries are anything but rare is evident from the report by a US Navy medic that Department of Defense data show that US Navy pilots have suffered a:**

937% increase in heart failure

152% increase in cardiomyopathy

69% increase in ischemic heart disease

36% increase in hypertensive disease

36% increase in hypertensive disease

63% increase in other forms of heart disease

The corrupt US Department of Defense, a ramp for the excess profits of the armaments industry, tried to blame the events on the Covid virus itself.

However, “according to information published by the US Army, 97% of active-duty U.S. troops are fully vaccinated, 90% of Army National Guard members are fully vaccinated, and 91% of U.S. Army Reserve members are fully vaccinated.”

So, if the “vaccine” did not cause the deaths and health injuries, and the virus was responsible, obviously the “vaccine” was totally ineffective in protecting against the virus.
