

Hypocritical Zuckerberg Caught Blasting 'Experimental' Covid Jabs To Inner Circle (VIDEO 5 min)

Description

USA: Facebook CEO Mark Zuckerberg has been caught blasting the Covid-19 jabs to his inner circle, describing the jabs as “experimental” and warning his staff to be very cautious about the unproven “gene technology.”

Regardless of how you feel about the vaccines, this leaked footage from Facebook headquarters is very relevant.

Anybody saying on Facebook what Zuckerberg says in this video would be immediately censored, canceled and deplatformed.

It's yet another case of “one rule for thee, and another for me” that the elite use to control the masses.

While Zuckerberg felt compelled to warn his nearest and dearest about the potential dangers of the experimental gene therapy pushed on humanity by government and Big Pharma in the wake of the pandemic, ordinary people like you and me were not allowed to express any doubt about the vaccines on social media without paying the price.

Freedom of speech has been throttled on Facebook and the other major social media platforms in recent years.

During the height of the vaccination drive, our right to freedom of speech was trampled by mainstream media and fact checkers acting on behalf of Big Pharma to instill fear in the masses.

Simply by speaking out and raising genuine concerns, truth tellers in our society have been punished and deplatformed.

Robert F. Kennedy Jr. emerged as one of the most influential voices during the early days of the pandemic, raising awareness of Bill Gates and Big Pharma.

Kennedy Jr., who describes himself as a vaccine safety advocate, isn't impressed with the Microsoft founder's track record of pushing vaccines on vulnerable populations, and in some cases causing serious health problems. But exposing Gates on social media was too much for Zuckerberg and the free speech gatekeepers. They censored Kennedy Jr. and finally banned him from Instagram for speaking out about vaccine safety, much to the delight of the mainstream media.

Kennedy Jr. wasn't the only one. Joe Rogan endured a year from hell. The mainstream media and fact checkers came after him, employing numerous smear tactics, each one more cynical than the last, in an effort to destroy his career. His crime? Simply inviting experts from different walks of life onto his podcast and daring to ask them honest questions about the vaccines.

Kennedy Jr. and Rogan are just the tip of the iceberg. Millions upon millions of ordinary people have had their voices taken away from them by the unholy trinity of Big Tech, Big Pharma, and the mainstream media. You may know one of these people.

You may be one of these people yourself.

If you have had your voice silenced by social media overlords, do not despair. There are too many of us to hold back. The global elite will not be able to silence us forever.

As George Orwell said, in a time of universal deceit, telling the truth is a revolutionary act. We must continue to stand together and support those who dare to ask questions and speak the truth.
