

## INSANE ! NEW SADS VACCINE ! AS ATHLETES DIE, SCIENTISTS PROPOSE CRAZY NEW “CURE” FOR SADS ! (VIDEO 21 min)

### Description

Josh Sigurdson reports on absolutely crazy new news regarding a new vaccine in development to stop “Sudden Adult Death Syndrome” which is an umbrella term for mass vaccine die-off. As the rate of athletes dying skyrocketed 1700%, scientists are proposing a vaccine to stop sudden heart attack related death in young people. That’s right, a vaccine to stop a vaccine injury. Much like people are now taking Monkeypox vaccines for an illness that’s actually an autoimmune disorder (Shingles) caused by a vaccine, now they’re calling for a vaccine for sudden death! This is truly crazy town!
