

## JUST IN: Fully Vaxxed \*And Boosted\* Adam Schiff Tests Positive For Covid-19

### Description

Democrat Congressman Adam Schiff (CA) on Tuesday announced he tested positive for Covid-19.

The 61-year-old lawmaker is fully vaccinated and boosted.

“This evening, I unfortunately tested positive for COVID-19,” Schiff said. “I’m feeling fine, and grateful to be vaccinated and boosted. In the coming days, I will quarantine and follow CDC guidelines.”

“And remember, please get vaccinated!” he added.

Several Democrats have tested positive for Covid in the recent weeks.

Hillary Clinton tested positive for the China virus last month.

Well, I’ve tested positive for COVID. I’ve got some mild cold symptoms but am feeling fine. I’m more grateful than ever for the protection vaccines can provide against serious illness.

Please get vaccinated and boosted if you haven't already!

No doubt the Democrats are going to bring Covid restrictions back just in time for the midterms (they need an excuse to use mail-in ballots in order to cheat).

The New York Times this week fired a warning shot and said “the next wave of Covid-19 is coming.”

The next wave of Covid-19 is coming. Here are seven ways you can lower your risk.
