

Justin Trudeau Called A Tyrant As He Is Swarmed By Angry Mandate Protesters

Description

CANADA: The anger is starting to spill over. After years of what many in the Canadian public now regard as useless covid mandates and draconian vaccine requirements, the tiny median Infection Fatality Rate of the virus has left people wondering what the point of it all was?

Numerous western governments have been exposed for hiding contrary scientific indicators and exaggerating the pandemic threat, and the underlying suspicion is that covid was exploited as a tool for a global power grab by political elitists. Not only that, but concerns are also growing over the rising number of excess deaths in North America, Europe, Australia, etc. which started not long after the widespread introduction of the experimental mRNA covid vaccines.

Canada under PM Justin Trudeau faced an aggressive campaign against basic liberties.

And, as facts and evidence about covid continue to bleed into the mainstream, events like this swarm of protesters following Trudeau to a restaurant in Ontario are liable to become commonplace.
