

Lawless tyrant Zelensky echoes Nazi fascists, issues BLACKLIST of US lawmakers and journalists while skimming BILLIONS from US taxpayers

Description

USA: While skimming billions of dollars from US taxpayers, Ukraine's puppet "president" Zelensky has issued a threatening blacklist that specifically names US lawmakers and journalists as being "Russian propagandists" who should be rejected by media and society.

To the shock of many, among those names are US Senator Rand Paul, congresswoman Tulsi Gabbard and prize-winning journalist Glenn Greenwald.

Anyone who disagrees with Zelensky is now apparently going to be named a kind of "Putin puppet," as if the installed leader of a European country is now allowed to dictate a kind of reputation score for US lawmakers and journalists.

This is the sort of tactic used in fascist, authoritarian states, smacking of Nazi Germany and the old Soviet Union under Stalin. And this is on top of Zelensky pursuing the following despicable tactics, all rooted in authoritarianism and tyranny:

- banning all opposition political parties in Ukraine
- outlawing all media except those outlets controlled by his regime
- outlawing books, films, music, artwork and theatrical productions that reference the russo-ethnic history of Ukraine (essentially banning true history)

As Glenn Greenwald detailed in this Twitter thread:

Before Russia's invasion and since, Zelensky has abolished basic liberties: shuttered opposition media, outlawed parties, imprisoned dissidents.

As Ukraine demands money and arms from the West, they now want to export this repression to our countries with McCarthyite blacklists:

You can see the full Ukrainian blacklist, obtained by @unherd. Beyond the individuals listed above, officially maligned are @JeffDSachs, @RandPaul, former Brazil President @LulaOficial, Col. Douglas MacGregor, Caleb Maupin, Marine LePen and many others:

It takes extreme audacity for Zelensky and his henchmen to go around the world demanding other nations send massive amounts of weapons and money to him, then try to suppress dissent in our countries by smearing journalists and citizens who question.

Zelensky is a raging lunatic tyrant, drunk with power and a danger to the entire world

In effect, **Zelensky has become a raging lunatic tyrant** who demands tens of billions of dollars from the USA under the false label of “defending democracy” while he actually marches in lockstep with the tyrants of history like Hitler, Stalin and Mao.

Zelensky's rightful place in the hierarchy of authoritarian history might be alongside Kim Jong-Un, Fidel Castro or Pol Pot. Yet somehow he is celebrated by the twisted, deceitful western media as a god-like hero who is tasked with saving western Europe from the ravages of Russia.

Yet Russia provides the only real hope for the people of Ukraine to escape their enslavement under Zelensky, a tyrant who spent nearly 8 years authorizing military strikes against the innocent people of the Donbass region, waging war against civilians while running secret police operations across the country, complete with assassinations of political opponents and secret disappearances of government critics.

This was all done with the full guidance of the CIA, of course, as has now been readily admitted by the Washington Post and other news outlets. Zelensky has been a puppet all along, which isn't surprising, given his background as a gay comedian and TV actor who was easily blackmailed into compliance with dirt from his sketchy past. So now, when Russia explains they are working to “de-Nazify” Ukraine, it all makes sense. Zelensky also worked to support the Azov Nazi battalion which has terrorized Ukraine's civilians for years and was only beaten back when Russia initiated its Special Military Operation to demilitarize the Ukraine regime that was murdering innocent civilians (including children).

For the sake of the people of Ukraine, we can only hope that somebody removes Zelensky from power soon, whether that be achieved by the USA, Russia or a Ukrainian military coup. The sooner Zelensky is removed, the sooner negotiations can begin with Russia for a peaceful resolution. And that means the needless deaths of Ukrainian men can finally come to a halt, far too late and long after Zelensky has sacrificed the lives of tens of thousands of innocent Ukrainians in order to try to protect his own lawless regime that panders to the west.

THANK GOD: Russia announces intent to help the people of Ukraine eliminate raging tyrant Zelensky

Fortunately for the people of Ukraine, Russia is now expanding the scope of its military operation and is apparently planning on removing Zelensky from power. As detailed by Zero Hedge:

Russia has for the first time stated as among its ultimate war aims achieving regime change in Ukraine. Russian Foreign Minister Sergey Lavrov said in Sunday remarks which were publicized Monday that Moscow will help the Ukrainian people “get rid of the regime” in Kiev. Going into early summer, the Russian military had focused its battlefield goals on “liberating” the Donbas, but this latest Lavrov comment on removing Ukrainian President Volodymyr Zelensky represents the most expansive war aim yet.

“We are determined to help the people of eastern Ukraine to liberate themselves from the burden of this absolutely unacceptable regime,” Lavrov said while meeting with Arab League officials in Egypt.

In similar fashion, Donetsk leader Denis Pushilin has declared that Russia must now continue its military operation westward, eliminating the Nazis and fascists from Odessa, Kiev and all Ukrainian cities originally founded under the Soviet Union.

From NewsRND.com:

The President of the Donetsk People’s Republic Denis Pushilin stated that it was time to liberate Russian cities such as Kyiv and other large cities.

The Russia Today website quoted Pushilin as saying: It is time to liberate the Russian cities founded by the Russian people again, such as Kyiv Chernigov, Poltava, Odessa, Dnepropetrovsk, Kharkov, Zaporozhye and Lutsk.

Since the Donetsk People’s Republic declared its independence from Kyiv in 2014, this region has been subjected to regular bombardment by Ukrainian forces.

As Zelensky, NATO and the USA have made quite clear, **the only way for Russia to be safe from western aggression is to eliminate Ukraine’s fascist regime** and allow the people of Ukraine to elect their own leaders (rather than having the CIA install obedient puppets).

We would estimate that Zelensky’s days are numbered, one way or the other.

Ending the fascist Zelensky regime is the only way to stop the genocide against ethnic Russians in Ukraine

It is becoming increasingly obvious to Russia and the people of Donetsk that the only way to stop Zelensky’s terrorism and anti-human mass killings of russo-ethnic civilians is to take Zelensky out and end his fascist regime once and for all. Like Adolf Hitler — also a crazed, power-hungry genocidal lunatic like Zelensky — at some point the honorable powers of the world must pay the cost of removing evil from this world, even if it means fighting a war to achieve that outcome.

In a previous era, America and the United Kingdom sacrificed to end Adolf Hitler’s evil regime. Russia

paid a heavy price in taking part in that chapter of history, losing over 20 million men fighting the Nazis. Now, it seems Russia is being called upon to repeat that sacrifice for the benefit of the future of humankind. A world run by CIA puppets like Zelensky is a tyrannical, despotic world that cannot be allowed to unfold. Zelensky and his controllers must be prevented from enslaving all of humanity.

In summary, Zelensky is the rendition of pure evil. He is 100% in alignment with the anti-human LGBT agenda, the “woke” demonic propaganda of the west, the climate change hoax that crushes human civilization, the vaccine death / depopulation agenda, extreme censorship of his own people and all the other horrific pillars of evil that now characterize western nations like Germany, France, the UK, the USA, Canada, Australia and New Zealand. These western nations are steeped in satanism, child murder (infanticide), child grooming, transgender mutilations, rigged elections, extreme censorship, illegal persecutions of political enemies (J6) and similar crimes against humanity.

Truth be told, removing Zelensky is just step one of the course of action needed to save humanity from satanism and collapse. The illegitimate enemy occupying force currently running the illegitimate regime in America must also be democratically removed from power, prosecuted for their crimes and punished for their crimes against our world.

Only then can we all get back to peaceful coexistence, global free trade, affordable food, fertilizer, energy, farming and abundance.
