

## Let's Talk America: Patrick Byrne calls former FBI and CIA directors ABSOLUTE TRAITORS

### Description

USA: Overstock.com founder and former CEO Patrick Byrne has branded former *Federal Bureau of Investigation* (FBI) Director James Comey and former *Central Intelligence Agency* (CIA) Director John Brennan as [absolute traitors to the United States](#).

"I can tell you, James Comey and John Brennan are guilty as hell. They are traitors to this country. They're absolute traitors in this country. I worked and took orders that I was told were coming from them. And it all turned out to be a complete political espionage. So there's absolutely a Deep State giving very nasty orders that were trying to do something by late 2015," Byrne told Dr. Alan Keyes during the May 23 episode of "Let's Talk America" on [Brighteon.TV](#).

"I had some involvement with the United States government, which I've acknowledged. I'm not a spy, I'm not an asset, I'm nothing like that. I was something called an expert. And I was helping them with some stuff. And I started seeing some very funny things happen in late 2015."

During an episode of "Steel Truth" on [Brighteon.TV](#) in December last year, Vandersteel shared that Byrne had free rein to engage with the federal government in [uncovering graft and corruption](#), thanks to the authority delegated by the Senate Judiciary since 2006. She added that Byrne even offered Hillary Clinton several bribes.

Byrne thought he was helping conduct a legitimate federal law enforcement operation, but it turned out that he was just helping to set up Clinton for the Deep State to control her.

In an earlier interview, the Overstock.com founder said he facilitated a bribe for Clinton on Jan. 14, 2016 on behalf of the FBI. He claimed that the FBI approached him on Dec. 1, 2015 to reveal that Clinton had already accepted a \$20 million bribe from the Turkish government.

The FBI told Byrne that they had authorization to set Clinton up in a sting and his assistance was needed to make it easy. The sting required an \$18 million bribe from another government. Byrne's mission was to get Clinton alone for about 10 minutes in a room where the government representative

would meet with her.

Clinton took the bait, making sure she kept the said meeting off her official calendar, and received the bribe. Byrne said Attorney General William Barr knew about the sting operation, as well as John Durham – the *Department of Justice* attorney assigned by Barr.

## America is dealing with people who want to do serious harm to the country

Keyes believes America is dealing with people who want to do serious harm to the country and have already overstepped the boundaries in order to rip from the hands of the American people their sovereignty by cheating in the 2020 national election. He added that Americans are facing a Democratic Party and its leadership who appear to be bent on destroying U.S. self-government and substituting it with a totalitarian government.

The respected host and statesman said the Democrats are in danger of being cut back to a stump on the national level and that this could be an occasion for soul searching and eventually recovery.

Byrne agreed, saying that the Left is worried about the upcoming midterm election with the Republicans expected to take control of Congress. He added that the Left is now deciding whether they will double down on cheating or back off. (Related: [Patrick Byrne: US to become like Venezuela, China if election fraud is not stopped.](#))

According to Byrne, the Left is not about consistency and truth but is about narrative and power. The entrepreneur said the leftists want a civil war and are trying to provoke people into a fight as part of their plan. He added that election integrity is crumbling around them and they already pulled off their masks and showed America who they really are.

“There will be a group of leftists who want to disrupt elections or don’t want it to happen by doing it the Maoist way,” Byrne said.
