Lindsey wants US tanks on the ground.

They can't get there quick enough.

Now Lindsey wants to use these same idiots to start a nuclear war with Russia.
This guy is a psycho.

I am urging the Biden Administration to meet President Zelensky's request for modern western tanks. The goal is quite simple: Defeat the Russians in Ukraine sooner rather than later.

Tanks would change the tide of battle.

Back in March he called for the assassination of Vladimir Putin. The man is dangerous.
