[The Gateway Pundit](#) reported:

Opponents of COVID-19 mandates have been mobilizing for weeks to publicly shame the billionaire magnate who has religiously promoted experimental gene modification injections that have taken millions of lives around the globe and left others critically injured.

“According to various Facebook posts, convoys have been organized from Vancouver Island, the Okanagan, and possibly even Alberta,” Strait.com reports.

Gates is hellbent on “modifying our DNA,” a demonstrator cautioned during a speech at the “Super Protest,” but, “He is not our God. He is not a doctor. It’s not a pandemic, it’s a pandemic. He’s not elected but he thinks he is more important than the government itself.”

Physicians also took the stage at the demonstration against Gates.

“Any doctors who start to speak up against the mandates, who start to speak up about the media narrative, are paying a price,” Dr. Sofia Bayfield declared. “We are paying a price professionally. Psychologists are going after us. We are losing our hospital privileges.

“Many of our colleagues who are surgeons and radiologists — who work in hospitals have not worked since October. Shame. As we know, science is never settled. Even Albert Einstein said we have to debate. Science is always an ongoing debate. This is very important. The risk that we are taking in standing up is worth it. It is our moral obligation.”

According to the TED Talk 2022 website, Gates will give a presentation outlining his book “How to Prevent the Next Pandemic” during his appearance at the high-powered four-day conference which concludes on April 14.

Bill Gates wanted to talk about “what it’s been like to become the subject of conspiracy theories.”

The MSM will, of course “fact-check” his statements, but he’s a globalist and a eugenicist that’s advocated for reducing population growth.

“The world today has 6.8 billion people,” Gates said during the talk. “That’s headed up to about 9 billion. Now, if we do a really great job on new vaccines, health care, reproductive health services, we lower that by perhaps 10 or 15%.”
