

Medical police state whistleblowers raise the alarm about “devastating” vaccine injuries, while the medicine supply chain collapses from wave of vax-compromised SICK CHILDREN

## Description

We’ve got a lot to cover in today’s Situation Update podcast. Things are unraveling quickly for the establishment, causing tyrants to desperately try to crack down even more on free speech, health freedom and decentralized energy technologies that could allow people to live off grid.

Here’s a quick look at what we cover in today’s podcast:

## Former head of the Australian Medical Association blows the whistle on “devastating” covid-19 vaccine injuries

Leading off the news today is the bombshell admission of Dr. Kerryn Phelps, former head of the AMA (Australia) who is now going public with the truth about devastating vaccine injuries.

Via [ChildrensHealthDefense.org](https://ChildrensHealthDefense.org):

*She testified that her wife, Jackie Stricker-Phelps “suffered a severe neurological reaction to her first Pfizer vaccine within minutes,” and continues to suffer ongoing neurological symptoms, musculoskeletal inflammation and fatigue.*

*Phelps also was diagnosed with vaccine injuries, including intermittent fevers and cardiovascular issues, following her second Pfizer dose in July 2021.*

*Phelps told regulators she’s “spoken with other doctors who have themselves experienced a serious and persistent adverse event including cardiological, rheumatological, autoimmune reactions and neurological consequences,” but “vaccine injury is a subject that few in the medical profession have wanted to talk about.”*

*“Regulators of the medical profession have censored public discussion about adverse events following immunisation, with threats to doctors not to make any public statements about anything that ‘might undermine the government’s vaccine rollout’ or risk suspension or loss of their registration,” she wrote.*

Remember, Dr. Phelps **helped construct the medical police state in Australia**, and she pushed vaccines, masks and lockdowns. She believed the vaccine lies so deeply that she allowed her own body to be infiltrated by the mRNA injections. Only now has she come to realize that she made a critical, profound mistake. She believed in the lies of those who are deliberately murdering humanity. She bet her life on the lie of “safe and effective” vaccines, and she is losing that bet badly. To her credit, she is now trying to warn others about all this, despite her previous role in pushing it.

She isn’t alone in blowing the whistle on the vaccine fraud, either. As CHD reports:

*Phelps joins a growing number of high-profile physicians worldwide, including British cardiologist Dr. Aseem Malhotra and oncologist Dr. Angus Dalgleish, who have turned against the vaccines after publicly supporting them, according to former New York Times reporter Alex Berenson.*

*Campbell Newman, former Queensland premier, called Phelps’ submission to the inquiry a “watershed moment,” because Phelps had previously been a strong and public vaccine advocate.*

*Beginning in 2020, Australia instituted some of the most “draconian” lockdown, vaccination and mask regulations in the world. Phelps supported these measures, but now is calling for more nuanced policies.*

## **The supply chain of children’s medicines has collapsed, with Kroger, CVS and Walgreens all initiating purchase limits**

Remember last year when deceptive health authorities claimed flu cases had dropped to nearly zero? They (falsely) claimed influenza infections had vanished, but covid was everywhere. It was all a giant,

coordinated fraud, of course, to try to get people to believe the covid plandemic was going to kill everybody if they didn't hurry up and get vaccinated.

Now, after the mRNA jabs have destroyed the immune systems of tens of millions of Americans, **flu season sickness is back with a vengeance**. Many hospitals are overflowing with sick patients, and children's over-the-counter medicines (like Tylenol and cough syrups) are in such high demand that the supply chain has broken down.

According to Yahoo Finance, Kroger just announced a purchase limit on children's pain medicine and cough remedies:

*Kroger Co said on Tuesday it had put in place limits on purchases of children's pain relievers and cold medicine products, as retailers in the United States grapple with supply constraints amid surging demand.*

Ponder what we're really observing here: The medical establishment attempted to mass murder children with mRNA injections that claimed to prevent a pandemic that didn't even affect children in the first place. The injections destroyed their immune function, making them vulnerable to infections which normally wouldn't impact children with such severity, leading to a wave of RSV and influenza cases at hospitals, causing doctors to prescribe antibiotics that don't treat viral infections, leading to a nationwide shortage of antibiotics. Meanwhile, sickness symptoms are worsening in so many children that the supply chain of children's Tylenol and cough medicines is wiped out nationwide.

This, friends, is called "modern medicine." The entire outcome would have been far better if children's weren't mass-vaccinated in the first place. **The vaccine IS the pandemic.**
