The study was debunked but Dr. Fauci never apologized for his lies.

Nearly one million Americans will have died from COVID since 2020. Hundreds of thousands of those victims died as a result of Fauci's bumbling of pandemic rules and [lying to the American public](#) about valid treatments.

Fauci now fears Republicans will target him if they gain control of Congress next year. [The Blaze](#) reported:

Dr. Anthony Fauci has suggested that if Republicans take control of Congress, they will

target him, but uncover nothing.

“It’s Benghazi hearings all over again,” Fauci said, according to the Washington Post. “They’ll try to beat me up in public, and there’ll be nothing there,” he said. “But it will distract me from doing my job, the way it’s doing right now.”

Fauci, who has served as NIAID director for more than three decades, has been a prominent public health figure throughout the COVID-19 pandemic. He is also currently serving as the chief medical advisor to President Joe Biden.

Republican Sen. Rand Paul, who has been a vociferous critic of Fauci, proposed an amendment to nix the NIAID director position, but that proposal did not clear the Senate health panel on Tuesday, according to the Post.
