Description

Mel and fellow warriors Attorney Tom Renz and Doctor Christiane Northrup discuss Covid fraud, illegal mandates, manipulated data and numbers, fake news fear tactics, and how to fight back against medical tyranny. Tom Renz is a patriot and America loving attorney leading the charge to force truth to find it's way through the corrupt courts that are shredding our constitution and bill of rights more every day this plandemic persists. Dr. Northrup has been a beacon and incredibly respected doctor for decades telling the facts and truth boldly and bravely despite being a target of the current regime and the WHO/WEF smear machine, and she is just getting started on the journey to save human lives and minds. Please support both of these gems of humanity in the fight to save our country and our citizens!
